F. B. MILLS, Seed Grower., Rose Hill, New York

5 NOVELTIES *FREE with EVERY \$1.00 PURCHASE*

50 Day Pickles

This is the earliest pickling cucumber I have yet found. The plants are very productive, vigorous and healthy, producing a good crop under favorable conditions within 50 days from the sowing of the seed. The fruits are small, just the right size for pickles, being from 2 to 3 inches in length, very uniform in size and of excellent quality. Try this splendid strain of cucumbers this year and you will be more than pleased. Select stock, about 25 seeds to packet, put up for trial. Read my free offer.

Read My Offer

I want to present my customers this year as an appreciation of their orders the past season, some interesting Novelties of great value.

With every \$1.00 purchase from this Seed Book each customer will receive Free the following 5 packets of seeds as described on this page.

1 Pkt. (25 Seeds)

50 Day Pickles

1 Pkt. (6 Seeds)

Jumbo Pumpkin

1 Pkt. (20 Seeds)

The Unknown Plant

1 Pkt. (10 Seeds)

Blue Lace Flower

1 Pkt. (100 Seeds)

Oriental Poppy

If your purchase is \$2.00 you will receive two packets of each and so on, the set of 5 packets for every \$1.00 purchased.

Please look this book over and I am sure you will find \$1.00 worth or more of Seeds or Bulbs you will want this spring at my attractive prices.

I do not sell these 5 Novelties this year at any price, they are sent free to my customers for trial.

F. B. Mills Seed Grower
Rose Hill, N. Y.

The Unknown Plant

I have something here I believe is entirely new to this country, so I am sending samples of seed to my customers for trial. A traveler first secured the seed in Egypt, where the plant was probably grown in King Tut's time. The plants produce the most unique, yet handsome dark red fruits I have ever seen or heard of, being perfectly round in form with a satin-like touch and lustre and keep in perfect condition for months. When pressed with the fingers they again spring back into their perfect shape when released like a rubber ball. Both fruit and plant are exceedingly attractive and interesting and has real value as an ornamental. It is an annual and succeeds in any ordinary soil producing fruit in three or four months from seed. Put up about 10 seeds to pkt. for trial. Read my free offer.

Jumbo Pumpkin

It is seldom I ever have a more interesting novelty to offer than the Jumbo Pumpkin. It is a selected strain from my Giant and a wonderful kind to grow for show purposes. In spite of its large size it is good for pies and home use. The outer skin is a rich salmon color, very handsome, the flesh being bright yellow, sweet and tender. Mr. James Broadhurst, a Maryland customer, sent me the above photograph and says: "All three pumpkins grew on one vine, weighing 65, 91 and 63 pounds respectively, 219 pounds." I am giving my customers, this year, a sample of seed from giant specimens to see who can grow the largest pumpkin. Try them; you will be pleased with the giant pumpkins a few seeds will produce. Selected seeds put up about 6 large seeds to a packet with full instructions for growing for trial. Read my free offer.

Blue Lace Flower

A new and most beautiful flower just recently brought over from Australia. For a time this flower was not known outside of the flower growers in the vicinity of New York City, where the cut flowers were in great demand in the fashionable district. The lovely umbel-shaped flowers are composed of a large number of florets and its color is the most beautiful imaginable, a clear heavenly blue—a rare and beautiful shade. While so beautiful in shade and color it is of the easiest culture, and seed sown out of doors after frost will bloom from July until October. It also thrives inside as a pot plant and will furnish flowers for a long period. I know of no annual that will give more pleasure than this beautiful flower with its dainty lace-like bloom. Seeds put up for trial, about 25 to packet. Read my free offer.

Oriental Poppy

This is the most showy of all. It is a perennial and when planted in a border of some corner of your garden, will make a most gorgeous show. The plants make a strong, vigorous growth about 3 feet in height, the foliage being a dark green, while the immense red flowers are borne profusely in early summer. It is one of the most showy perennials I know of and when once planted, will grow and bloom every year, being perfectly hardy. Put up about 100 seeds to a packet for trial. Read my free offer.

Plant Mills Tested Seeds

READ MY DOUBLE GUARANTEE

First—I guarantee the Vitality and Purity of my seeds to the full extent of the purchase price. Even with the highest quality seeds, success in gardening and farming depends largely upon soil, cultivation and weather conditions. It is therefore agreed that in no case shall I be liable for more than the amount actually paid for the seeds or bulbs.

Second—I guarantee the safe arrival of all seeds and bulbs in good condition and should anything be lost on the way I will refill when proof is furnished of non-arrival. This is the Double Guarantee that protects all who purchase Mills Seeds and Bulbs.

My Motto is—"Never send out any seeds or bulbs which I do not know that I myself would be thoroughly satisfied with, were the position of buyer and seller reversed."

Highest Quality---Lowest Prices

Mills Seeds are raised with the greatest possible care and I do not think there are any better seeds produced. They are tested for Vitality and Purity before being sent out in order to make them safe for planting. Every variety I offer is described as accurately as possible, and time of maturity given is as nearly correct as I can give, varying somewhat in different sections of the United States, but based on my thirty-seven years experience. Nearly all illustrations in this book have been made from actual photographs.

My prices are right, taking into consideration the saving of expenses I make by issuing a small Seed Book, and also by doing business on my own farm and in my own buildings at Rose Hill, N. Y., where mail is received and dispatched twice daily direct to Railway Mail Trains, as compared with many City Seedsmen who are under heavy expenses for very large expensive catalogues, rents and other expenses I am able to save, giving the benefit to my customers.

Seeds and Bulbs Delivered by Parcel Post

All Seeds offered in this Seed Book by the packet, ounce, pound or fraction of a pound, or any quantity of bulbs will be delivered to your door at the prices given entirely postpaid.

Packages weighing up to 70 pounds can be sent into the 1st, 2nd, and 3rd zones, and 50 pounds is the weight limit of packages to the 4th, 5th, 6th, 7th, and 8th zones.

Send your order for Vegetable and Flower Seeds to Mills Seed House, Rose Hill, N. Y., and get the best Seeds that money can buy, and remember you will receive Free for Trial the 5 Novelties shown and described on the inside of front cover if your order amounts to \$1.00 or more.

Our interests are really mutual—your success is my success—I want to help you all I can for I want you to have the finest garden in your neighborhood by planting Mills Seeds.

How to Order

Please sign your name and full address on every order or letter you send me, and write very plainly and use my Order Sheet when ordering, if possible.

I have been doing a strictly cash-with-order business for thirty-seven years and you run no risk in sending money with order. I refer you to my hundreds of thousands of customers all over the United States.

Remit at my risk by Money Order, Draft or Check. Use Registered Letter if you send Cash or Stamps. No seeds sent C. O. D.

Customers outside the United States must add 20 per cent to my catalogue prices for the extra postage and packing required. No foreign coin or postage stamps accepted.

Grow the Wonderful Guinea Gourd Bean

The NEW GUINEA GOURD BEAN, which comes from Australia, is a novelty well worth growing. It is easy to grow and one vine will produce wonderful results. It can be grown as a climber on an arbor, any kind of trellis, or will run along on fences, making a growth of 20 to 30 ft., producing large fruits 3 to 5 ft. in length and from 3 to 6 inches in diameter, which in their earlier growth while young and tender can be used in the same manner as squashes and egg plant, being sliced and fried, but when matured the shell is very hard, and as one of my customers wrote me, "They make regular Babe Ruth Ball Bats."

The best evidence of what can be grown is shown by the above photographs, sent me by customers in different parts of the United States. Nothing can be grown in the garden that will attract more attention and prove more interesting. Mature in about 100 days. Growing instructions on every packet of seed. Packet about 15 seeds 10c, 3 pkts. 25c, 15 pkts. \$1.00.

A PAGE OF GOOD NOVELTIES

Christmas Cherry.

Orange Calendula

This is the most beautiful and popular annual, growing well from seeds in any good garden soil. It blooms freely and continues in bloom from early summer to late in the fall. Plant grows 10 to 15 inches high, producing masses of beautiful double flowers of deep orange-yellow color and it is suitable for pot culture for winter blooming. Do not fail to include this in your list of flowers.

Pkt. (50 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

Molten Fire

This wonderful novelty is attracting a great deal of attention wherever grown. It is a beautiful plant of the Amaranthus family, and I believe was first introduced by Luther Burbank, who claims that nothing can compare with it for brilliancy of color. The plants grow about 4 feet in height, but when two to three feet high, leaves at the top and the side begin to open, like gigantic dahlias of a most brilliant color, increasing in size and abundance until the whole plant is illuminated with huge poinsettia-like tufts of flaming fire, which can be seen for nearly a half mile and they retain their brilliancy of color for three months or more.

Pkt. (50 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

Christmas Cherry

This is the most showy and interesting plant for garden or house culture. The plant grows about a foot in height, with dark green leaves and an abundance of fruit. It is called by some a Jerusalem Cherry, and at first the fruit is green, then turning to the brightest glossy scarlet when ripe. Sow seeds in house early in spring, transferring the plants to the garden after danger of frost, and by fall they will be loaded with cherries, and may be potted and taken into the house, and the fruit will hang on the plant nearly all winter, which makes a very attractive pot plant.

Pkt. (50 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

Orange Calendula.

Orange Sunberry

This new Sunberry is claimed to be an improvement on anything in the Sunberry class, and was only recently introduced by Luther Burbank, from whom my supply of seed comes. It resembles the black Sunberry, though even more productive and the berries grow in larger clusters, but above all, the berries ripen nearly a month earlier. The color of the berries is a beautiful orange and the productiveness of the fruit will appeal to everyone. Give it a trial this year and report how you like it.

Pkt. (50 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

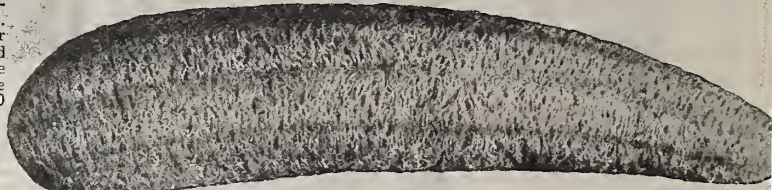

Orange Sunberry.

Chinese Sponge

This is a very ornamental and useful vine for a porch or trellis, and comes from the gourd family. It is a strong and rapid grower and produces a great quantity of fruits from one to two feet long of an attractive shape and color. Inside the shell of matured fruits there is a sponge-like substance and when taken out and bleached, it is porous and tough, making a good substitute for sponges or dish cloth besides being useful for various articles of fancy work. Plant after danger of frost in any good garden soil and the fruits will mature in from 90 to 100 days.

Pkt. (30 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

Garden Berry

This is a very attractive fruit, easily raised from seed in three or four months from the time seed is planted. Plants grow strong and erect, 2 to 3 feet high, producing fruit in clusters about one-half inch in diameter of shining black color. It makes good pies, preserves and jams, but should not be picked until thoroughly ripe. The above photograph was sent me by one of my customers, who writes:

"We picked ripe berries from August until late in October. The bushes were in full bloom and loaded with green berries when killed by frost."

Another customer writes: "My Garden Berry was especially fine, each plant average 3 1/2 quarts of fruit." While another customer writes: "Had good success with Garden Berry. Every plant was loaded with berries, which make lovely preserves when ripe."

You should not fail to grow garden berry this year.

Pkt. (50 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

Giant Stringless Green Pod Beans.

Bush Limas

Remember the Lima Bean is a native of warm climates and requires warm weather to grow to perfection. They are sensitive to cold and moist weather and cannot be planted until after the ordinary snap beans.

Early Dwarf Bush Lima Beans.

Early Dwarf Bush

This variety is smaller than others but is the earliest Bush Lima Bean. While the flavor is equal to the best large Limas. The green Beans are plump, tender, sweet and juicy in flavor when cooked. Green beans can be had in abundance from July until frost by planting this sort. Ready to use in 50 to 60 days.

Pkt. (over 100 seeds), 6c; 3 pkts., 15c; ½ lb., 22c; lb., 40c; 3 lbs., \$1.15.

Mammoth Bush This is one of the best Mammoth Bush Limas. Plants grow 18 to 20 inches high in bush form and produce Beans as large as Pole Limas, and are ready to use nearly two weeks earlier. The Beans are thick, of excellent quality and of the true buttery Lima flavor. It is an enormous yielder and every garden should have some of these Limas. Ready in 65 to 70 days.

Pkt. (about 30 large seeds), 6c; 3 pkts., 15c; ½ lb., 30c; lb., 55c; 2 lbs., \$1.00, postpaid.

Mammoth Bush Lima Beans.

Bush Beans

Notice I offer Beans by the packet, half pound and pound, instead of by the pint and quart.
One-half pound equals about ½ pint.
One pound equals about 1 pint.
Two pounds equals about 1 quart.
Fifteen pounds equals 1 peck.
Sixty pounds equals 1 bushel.

Giant Stringless Green Pod

This is a very popular green pod Bean and one of the best. The plants are of strong growth, very productive, pods about 5 inches long, light green, slightly curved, very meaty and absolutely stringless. No better variety for the home garden on account of its fine flavor and brittleness. Ready for picking in about 45 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; ½ lb., 20c; lb., 36c; 3 lbs., \$1.00, postpaid.

Bountiful Bush (Green Pod)

Remarkably Prolific and Continuous Bearer.

This Bean is a great favorite wherever known. Plant is of thrifty growth and practically rust and mildew proof. It is extremely early, very prolific, bumpy, and bears continuously for several weeks. It is the first to give pods fit to pick in the spring and about the last to yield edible pods in the fall. The rich, green pods, which are of large size, thick, broad, and extra long, uniform in shape, solid and meaty, are absolutely stringless. Ready for picking in about 42 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; ½ lb., 20c; lb., 36c; 3 lbs., \$1.00, postpaid.

Bountiful Bush Beans—Green Pod.

SEE PAGE ONE
Wonderful Guinea Gourd Bean
You Should Grow It This Year

Sure Crop Wax (Yellow Pod)

This is a very prolific cropper of high quality. The habit of the plant is sturdy and upright in growth, branching freely, carrying a heavy crop of handsome, rich yellow pods, averaging 6 to 7 inches in length. The pods are very meaty and sweet and perfectly stringless at all times, making it especially valuable for home garden planting. It is ready to pick in about 45 days and you should grow it.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; ½ lb., 20c; lb., 36c; 3 lbs., \$1.00 postpaid.

Mills Rust-Proof Wax (Yellow Pod)

I consider this one of the best Rust Proof Wax Beans in cultivation, and always produces heavy crops of large attractive golden yellow pods. These pods are very thick and fleshy, tender, brittle and entirely stringless at all stages until maturity. As its name indicates it is practically Rust Proof and ready to pick in about 45 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; ½ lb., 20c; lb., 36c; 3 lbs., \$1.00 postpaid.

Mills Rust Proof Wax Beans—Yellow Pod.

Improved 1200-to-1 Bean

I have been growing this Bean for several years endeavoring to improve it each season. The plants are of decidedly robust growth branching freely, producing great quantities of pods in clusters well filled with nearly round, medium sized, pure white beans, of the best quality. It ripens very evenly and if given good cultivation will mature its crop in about 75 days.

It is a sure cropper and has made wonderful records. Read the report of one of my customers, Mr. Chas. H. Fuller, Montpelier, Vt., as follows:

"I am enclosing a copy of a record I made of the 1200 to 1 Bean. From this you will see that I tried out these Beans in all kinds of soil."

| Soil Condition | Planted | Picked from One Vine | Averaged to the Pod | Total Yield of Beans |
|---|---------|----------------------|---------------------|----------------------|
| Sandy, and very shaded | 1 Bean | 138 Pods | 6 Beans | 828 Beans |
| Sandy Loam, fairly sun-exposed | 1 Bean | 241 Pods | 6 Beans | 1446 Beans |
| Heavy, with considerable clay | 1 Bean | 257 Pods | 5 Beans | 1285 Beans |
| Rich Loam | 1 Bean | 303 Pods | 6 Beans | 1818 Beans |
| Rich Loam, plant surface fertilized with wood ashes | 1 Bean | 358 Pods | 6 Beans | 2247 Beans |
| | | Many had | 7 Beans | |

I have many other splendid reports on this Bean from all parts of the country, but do not have space here to print them.

This Bean when introduced was named 1,200 to 1—but this does not indicate or mean that all plants will produce such large yields, for the season, soil, time of planting, care, etc., has everything to do with production. Mr. Fuller produced 358 pods and 2,247 beans from 1 bean planted, see his report above.

Plant only 1 bean in a hill on soil not wet or too rich, or the vines will throw out tendrils and run too much to vine. Remember this is a shell bean for soup or baking and not a snap bean. Try it.

Pkt. (about 60 seeds), 10c; 3 pkts., 25c; ½ lb., 30c; lb., 50c; 3 lbs., \$1.00 postpaid.

POLE BEANS

Golden Cluster Wax

The grandest Yellow - Podded Pole Bean in cultivation. As shown by the photograph it produces great quantities of stringless golden-colored waxy pods 7 to 9 inches long, pods being produced in clusters of from 4 to 6 all over the vine. The pods are thick, fleshy, and of delicate flavor, and if kept picked off and not permitted to ripen the vines will bear continuously until late in fall. Ready in about 75 days.

Pkt. (about 60 seeds), 6c; 3 pkts., 15c; ½ lb., 25c; lb., 45c; 3 lbs., \$1.25 postpaid.

Giant Podded Lima

This is the very earliest Pole Lima and also extremely productive. It is a strong grower, clinging well to the pole and is a sure cropper. The pods hang from the foliage in large clusters and contain from 3 to 5 and sometimes even more big fat buttery Beans to the pod, of the finest quality. It is extremely productive throughout the season. For a Pole Lima plant this one. Ready in about 80 days.

Pkt. (about 30 large seeds), 6c; 3 pkts., 15c; ½ lb., 25c; lb., 45c; 3 lbs., \$1.25 postpaid.

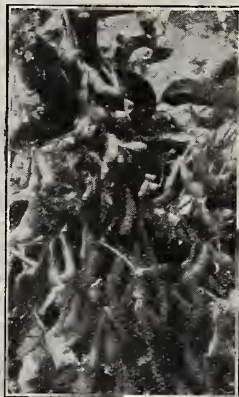

Golden Cluster Pole Wax Bean,

N. B. Ham, Ponta, Tex., April 16, 1923, writes: "Am glad to tell you that I am more than pleased with seed I ordered from you. They have come as near 100 per cent germination as is possible. Please put me on your Seed Book list."

Coffee Beans

The Coffee or Soja Bean is a great yielder, and is easily grown in any ordinary garden soil where it is usually very prolific. The plant grows very strong as shown by the photograph, producing a great abundance of pods and beans. It is claimed by many that an excellent drink, very nearly equal to good Java Coffee can be made from these beans. I believe it is worth trying and I have a limited quantity of seed stock to offer this season at attractive prices. It can be planted in May and cared for and harvested the same as other beans.

Pkt. (about 125 seeds), 6c; 3 pkts., 15c; ½ lb., 25c; lb., 40c.

Coffee Bean.

The Vegetable Peach

The Vegetable Peach is a fruit you should grow in your garden this year. It grows about the size of a large peach, of a bright orange color, somewhat russety. It is produced on vines smaller than a muskmelon vine, and requires the same cultivation. It is easily grown in most any section of the country, and is a great producer. The fruit is very attractive, flesh firm, and a good keeper. It is fine for pies, sauce, preserves, or sweet pickles. A glass jar of these cut in halves and cooked in syrup presents a beautiful and tempting appearance. Recipes for cooking, canning and preserving on every packet.

Giant Podded Pole Lima.

Packet, (about 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; Pole Lima. oz., 25c.

Table Beets

Leaflet, "How to Grow Beets" free with order if asked for.

Mills Extra Early Blood Turnip Beet

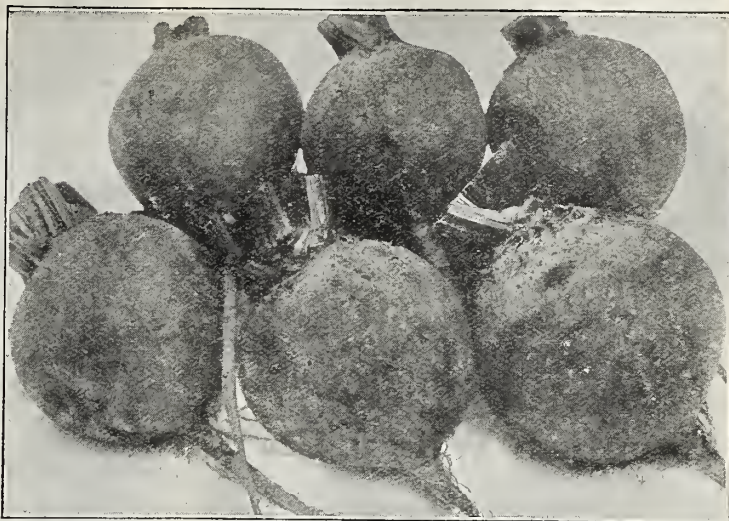

This is a selected strain and I claim it is the finest main crop all-purpose Beet in cultivation. It is uniform in size, handsome in appearance and attracts attention everywhere. It is very early, the color being a rich, dark red, and the quality is superb, being sweet, tender, and fine-grained. Splendid for canning, and its keeping qualities are excellent. Ready for use in 45 to 50 days from seed.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

Crosby's Egyptian

A very popular Extra Early Garden Beet, and a money maker for market gardeners. This Beet is handsome in form, good-sized, small tops, very small tap root, fine quality, flesh deep red, and of quick, rapid growth. Ready for use in 45 to 50 days.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 9c; ¼ lb., 25c.

Mills Extra Early Blood Turnip Beets.

Crosby's Egyptian Beet.

Early Pickling Blood Beet

This is one of the grandest of all Early Blood Turnip Beets. It is a small, round, uniform-shaped variety. Color a glossy red and of exceptionally fine quality. The beets are smooth, with small tap root. It is especially popular as a family beet for pickling or for greens. It is good for early planting for spring and summer use, and can be stored in the cellar for winter use on account of its long keeping qualities. Ready for use in about 40 days.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

Early Pickling Blood Beets.

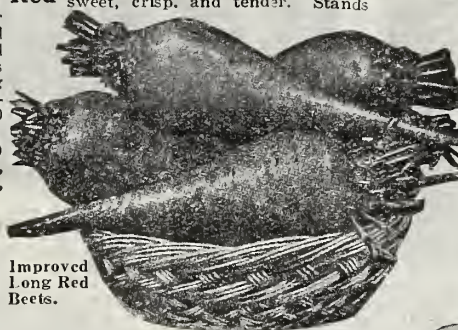

Market Gardeners' Beets.

Improved Long Red

The flesh is rich dark red, very sweet, crisp, and tender. Stands dry weather better than most sorts, and is good for fall and winter use. Roots 8 to 10 inches long when matured, requiring 60 to 70 days.

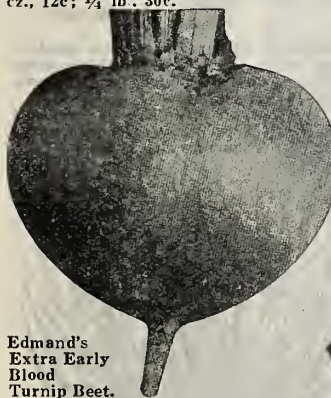

Pkt. (about 250 seeds), 3c; 3 pkts., 8c; 6 pkts., 15c; oz., 9c; ¼ lb., 20c.

Improved Long Red Beets.

Market Gardeners' The root is deep red, dark red, very sweet, crisp and tender, being good at all stages of growth. It is a rapid grower, making a heavy root for autumn or winter use. Symmetrical in shape and handsome in appearance.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

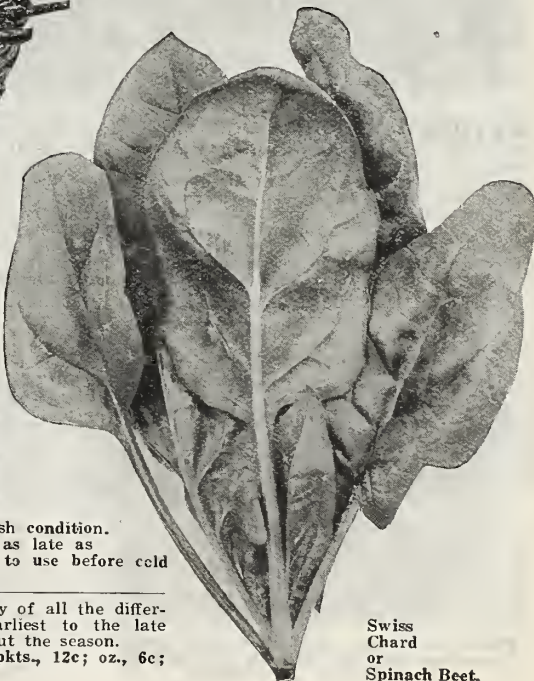

Edmand's Extra Early Blood Turnip Beet.

Swiss Chard or Spinach Beet

The leaves of Swiss Chard are used for greens, the same as Spinach or Beet tops. Are equal in quality and more easy to prepare than Spinach. Can be used all summer and nothing in the garden requires less care.

Pkt. (200 to 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

Swiss Chard or Spinach Beet.

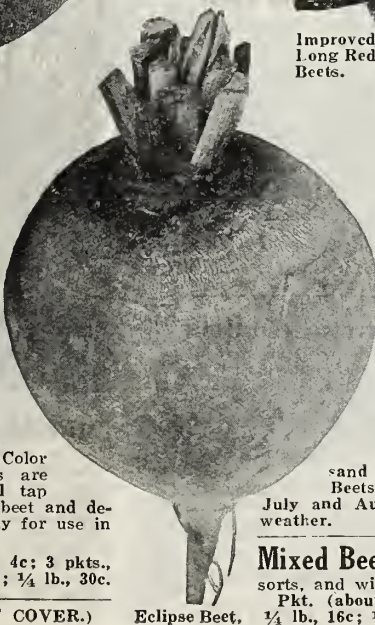

Edmand's Extra Early Blood Turnip

Round in form, smooth, has a short top. Skin and flesh are a deep blood red, very sweet and tender. One of the best for winter use. Matures in about 50 days.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 9c; ¼ lb., 25c.

Eclipse This is an early Beet, of round, uniform shape and of very fine quality. Color is a glossy red. Beets are smooth with very small tap root. A popular family beet and desirable for greens. Ready for use in 42 to 45 days.

Pkt. (about 250 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

Eclipse Beet, ¼ lb., 16c; ½ lb., 30c.

Mixed Beet Seed

Produces a great variety of all the different Beets from the earliest to the late sorts, and will supply you with beets throughout the season.

Pkt. (about 250 seeds), 3c; 3 pkts., 7c; 6 pkts., 12c; oz., 6c; ¼ lb., 16c; ½ lb., 30c.

(SEE INSIDE FRONT COVER.)

Mills Mammoth Prize Long Red Mangel

The most popular red mangel, sometimes called "Giant" or "Jumbo." Often grows from 24 to 30 inches in length, weighing from 20 to 30 lbs. This variety will yield more tons per acre than any other and is one of the best for stock feeding during winter. Pkt. (300 to 400 seeds), 4c; 3 pkts., 9c; oz., 8c; ¼ lb., 22c; ½ lb., 35c; lb., 65c; 5 lbs., \$3.00, postpaid.

Golden Tankard Mangel

The most desirable Yellow Mangel, immense yielder, producing from 1,000 to 2,000 bushels per acre on good soil. Quality high and is greatly prized by dairy farmers. Pkt. (300 to 400 seeds), 4c; 3 pkts., 9c; oz., 8c; ¼ lb., 20c; ½ lb., 32c; lb., 55c; 5 lbs., \$2.25, postpaid.

Giant Half Sugar Mangel

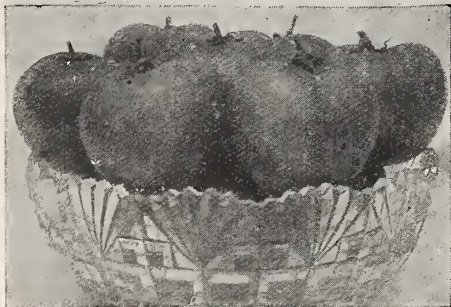

Considered by many more valuable for feeding purposes than the other Mangels. Yields nearly as much per acre, roots large, oval in form, with small top, flesh white. Pkt. (300 to 400 seeds), 4c; 3 pkts., 9c; oz., 8c; ¼ lb., 20c; ½ lb., 32c; lb., 55c; 5 lbs., \$2.25, postpaid.

Egyptian Wheat Corn

Egyptian Wheat Corn originally came from India and is frequently called California Rice Corn and California Wheat. It is quite an interesting novelty and grows tall and stools out from the roots, producing large heads on the top of the stalk filled with round, plump, light colored seeds. It makes excellent feed for horses and cattle when cut green and the seed when ripe is excellent for poultry. It will outyield Kaffir Corn or Cane, and a small quantity of seed will produce a great quantity of fodder and grain. Try it.
Pkt. (about 400 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; lb., 35c; 3 lbs., \$1.00, postpaid.

Potato Seed Balls. One-half natural size. It is from these that ALL valuable new varieties of Potatoes are produced.

**Brazilian or Stooling Flour Corn**

This corn comes to me very highly recommended and is pronounced a great stooling variety. Each stalk bears 2 to 4 ears, 5 to 6 inches in circumference and 9 to 12 inches in length. It produces a great abundance of fodder and I know of no variety that will equal it for ensilage. It is the best variety for poor soil and the kernel contains more starch than others, and if ground and bolted with the same process as wheat gives a fine flour. The kernel is pure white in color and occasionally one shaded brown appears. It being an immense yielder of both corn and ensilage I highly recommend it to my customers in the North, East, South, and West, and as I have a fair crop I can offer it at attractive prices.
Pkt. (about 100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; lb., 45c; 5 lbs., \$2.00, postpaid.

Hybridized Potato Seed from Seed Balls

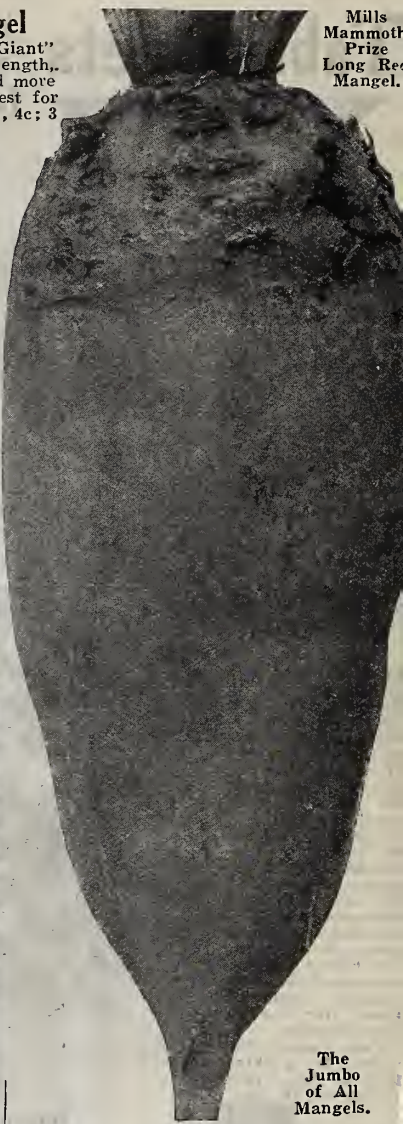

From the Seed-Ball is the wonder of the Vegetable World. There is nothing like them. No product of the garden so interesting, none may prove of such value. All valuable new Potatoes are produced from such seeds.

The Seeds I offer will produce Seedlings of all colors, shapes, sizes and qualities, often 100 to 200 Potatoes in a hill. There will be white, yellow, pink, red, blue, purple, and black potatoes.

The seed seems to go mad and try to produce anything and everything in the potato line. Very strange and marvelous "freaks" often appear. Millions of people never saw a Potato Seed Ball. Thousands have tried to get the seed and now is the opportunity.

Order some of the seed this year, and you may be able to produce a new potato of great value.

Packet, (about 100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

The
Jumbo
of All
Mangels.

REMEMBER THIS: Don't cover garden seeds too deep. They will germinate more quickly if only a little soil is on the seeds, and firmly pressed down after sowing.

Don't think water will take the place of thorough cultivation. It won't. Keep the soil moist by frequent cultivation.

**Ground Almond or Chufa**

Have a fine flavor resembling the Coconut or Almond. The nuts grow close to the surface on strong plants, and yield great quantities. The meat is snow white, covered with a thin shell or skin of brown color. If planted in early spring a big crop of nuts may be expected in the fall. In the South they are much planted for feeding of hogs and poultry.

Pkt. (over 50 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Carrots

Mills Champion Yellow

Flesh dark reddish orange color, tender and sweet. A heavy cropper, maturing in about 75 days. Good for table use or for stock feeding.

Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 10c; ¼ lb., 25c.

Earliest Scarlet Forcing

The earliest of all Carrots and best for forcing, also suited for home garden for quick crop. Roots grow nearly round, 2 to 2½ inches in length, of rich orange red, ready to use in about 55 days.

Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

Mills
Champion
Yellow
Carrot.

Orange Danvers
Carrot.

Orange Danvers

Roots measure 1½ to 2 inches in diameter at the top by 5 to 7 inches in length. The flesh is fine grained, sweet flavor, of a beautiful rich orange color. Fine variety for winter storage. Matures in about 75 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 10c; ¼ lb., 25c.

Improved Long Orange

Roots uniform and smooth 8 to 10 inches long, of large size and deep, rich, orange color. It is a good keeper and fine quality for winter use. Grown extensively for stock feeding. Matures in about 75 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 10c; ¼ lb., 25c.

Improved
Long
Orange
Carrot.

Golden Beauty Carrots.

Golden Beauty

A splendid table variety, growing from 5 to 7 inches long. The flesh is a beautiful rich orange color, tender and fine grained, free from hard core. It is medium early, with small tops. A splendid keeper and ready for table in 60 to 65 days.

Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

Mastodon

Suited for shallow soil but an enormous cropper. Root large pure white, smooth, flesh rich and solid, best for stock feeding. Matures in about 90 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Earliest
Scarlet
Forcing
Carrot.

Giant Short White

Roots are half long, smooth, but tapering to the point. Color white, solid, crisp, and good for stock feeding. Matures in about 85 days. Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 10c; ¼ lb., 25c; lb., 75c.

Carrots should be sown as early in the spring as the ground is fit to work, though good crops may be grown by sowing as late as the middle of June. Cover ¼ to ½ inch deep and press the soil well over the seeds.

Giant Short White.

Oxheart or Guerande

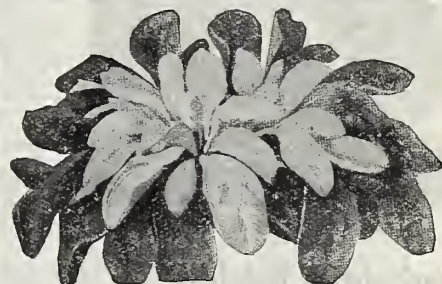

Easy to Harvest

A favorite for the home garden. The best second early sort, growing 3 to 4 inches long by about 2½ inches in diameter at the top. The quality is excellent, being free from hard core or fiber, maturing in about 65 days.

Pkt. (over 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 30c.

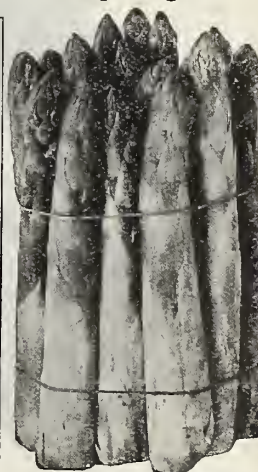

Oxheart or Guerande Carrot.

Corn Salad or Fetticus

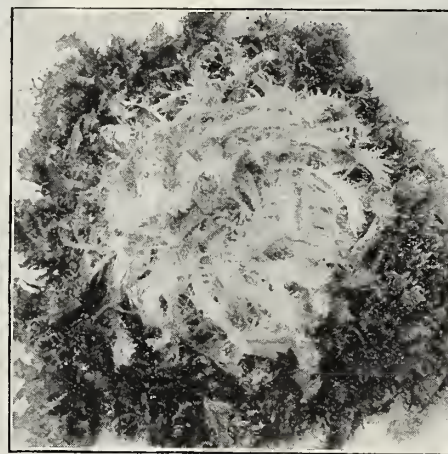

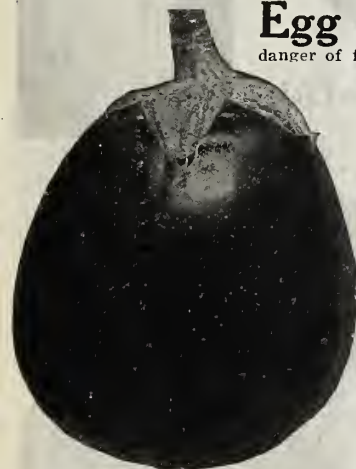

A good salad, especially for winter use. Can also be cooked and used like spinach. Sow early in spring for summer use, or July or August for fall use. It is ready for table in 60 days. Pkt. (about 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c.

Asparagus

Egg Plants

Sow the seed in hotbed in March or April and set in the garden after danger of frost. They require rich soil.

Endive

Sow early in spring and the plants reach eating stage in 60 to 65 days.

GREEN CURLED. Leaves tender, green but bleach white. Pkt. (about 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 20c.

BROAD LEAVED BATAVIAN. Leaves large and broad. Tie up for blanching. Pkt. (about 1500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 20c.

PALMETTO. Early, light green sort, remarkably tender and rich when cooked. Soak seed 24 hours in warm water before sowing. Pkt. (about 200 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 20c.

BLACK BEAUTY. Best for the Northern States, and it is the earliest variety that grows to good size suitable for market. It is jet black in color, shape is well shown in illustration, average weight 2 to 3 lbs. Ready for table in about 130 days.

Pkt. (about 125 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 50c.

NEW YORK IMPROVED LARGE PURPLE. A favorite for both market and private use, and a standard sort in the South. Fruit is large, skin rich purple, flesh white and of good flavor. A vigorous grower, being extremely productive, ready for table in about 140 days. Pkt. (about 125 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 50c.

Cabbage

My list is made up of the very best Early, Medium, and Late Crop varieties. Seed is all carefully tested.

In the Northern and Central States for early use sow seeds of the early kinds in a box in the house or a hotbed in February or March. Transplant to the open ground in April or May, or sow a bed outside as soon as soil can be worked. For second early or late Cabbage sow in April or May and transplant in June or July.

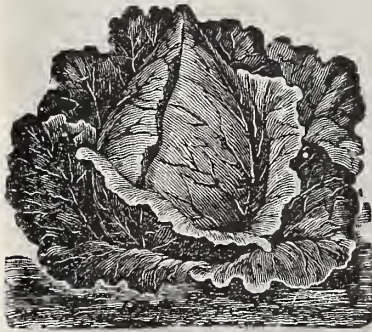

All-Head Early Cabbage.

All-Head Early This is the earliest of the large flat head sorts. It is remarkably solid and is really an all-the-year-round cabbage, being equally good for winter. It is usually grown for summer and fall use, yet if sown early in July it will form solid heads. Ready for market in about 90 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ¼ lb., 75c.

Early Spring It is desired by many on account of being a first early flat head Cabbage. It is of the Allhead Early type resembling it in habit of growth but a little smaller. It is round in shape, slightly flattened, very solid even before the heads attain their mature size. Ready in about 85 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c; ¼ lb., 55c.

Early Winnigstadt Cabbage.

Early Winnigstadt

One of the best early sorts for general use, and an old favorite everywhere. It is very hardy, which permits early planting. Heads are pointed, very hard and of uniform shape. A good keeper winter and summer. Ready for market in about 90 days.

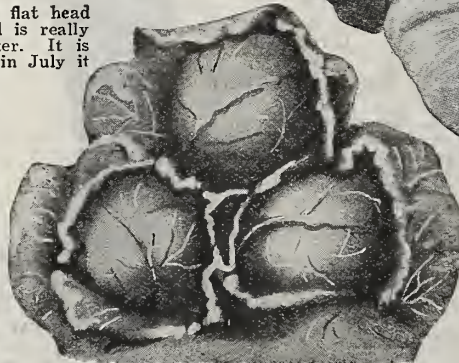

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ¼ lb., 75c.

Early Jersey Wakefield This is a very popular sort and needs no description. The heads are usually hard and solid, generally pointed at the ends with but few outer leaves. I offer a very fine strain which matures in about 90 days from the sowing of the seed.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., 75c.

Copenhagen Market Cabbage.

Early Spring Cabbage.

Early Jersey Wakefield Cabbage.

Danish Ballhead

This is the hardest of all Cabbage, being especially desirable for shipping. The hardness, solidity, and weight of heads is truly wonderful and heads of equal size will weigh quite a little more than other varieties. A grand variety for storing, if market prices are not satisfactory in the fall. It has few outer leaves which admits of close planting. Heads are medium sized and specially recommended for growing for market purposes in the Northern states. Matures its crop in about 120 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., 85c.

Copenhagen Market

A splendid early Cabbage from Denmark, producing a large globe-shaped head, averaging about 8 lbs. in weight with few loose leaves, permitting close planting. It is a vigorous grower and an excellent keeper. Does well in the South. Ready for market in about 80 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., \$1.

Mills 60-Day

The Earliest Har-
Heading Cabbage in
Cultivation. This is a great variety and should be planted in every garden. 60-Day is just what its name implies and has produced heads in 60 days from sowing of the seed under favorable conditions and I am sure it will please all who grow it. The heads are pointed, fairly sized, very solid, and just right for market gardeners, truckers or home gardens, for it will readily sell in any market. It can be planted closer than most varieties of cabbage, and almost every plant is sure to form a perfect head if sufficiently fertilized and cared for.

Pkt. (about 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., \$1.00.

Chinese Cabbage

A wonderful new salad plant, easy to grow. Resembles Celery, yet is something like Cos Lettuce. Firm, crisp, easily blanched, excellent when cooked as greens or as a salad.

Pkt. (about 250 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Chinese Cabbage

Danish Ballhead Cabbage.

Remember if you order \$1.00 worth of any seed offered in this Seed Book you will receive absolutely free for trial the 5 Novelties as illustrated and described on inside of front cover. If you order \$2.00 worth you will receive two pkts. of each, or 5 packets for every \$1.00 worth you order.

Giant Solid Head

This is a grand Cabbage, and all who have grown it are more than pleased. It is a late variety and the heads are as solid and hard as Danish Ballhead. The heads are round as shown by the photograph and they are not liable to crack. It is a very vigorous grower and will stand drouth to a remarkable degree and the heads will average from 8 to 12 lbs. through a whole crop with proper cultivation. It is highly recommended for keeping qualities and is an excellent sort to grow for storing in winter for spring market. Ready in about 120 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., \$1.00.

Giant Solid Head Cabbage.

All-Seasons

Good Early and Late

This is one of the finest for second early or late crop, growing to a large size. The heads are extremely hard and solid; round. A sure header and keeps well. It is called "All Seasons" because it is good for autumn as well as summer. Ready for market in about 105 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ¼ lb., 75c.

Mammoth Rock Red

This is the largest of the red Cabbage and a sure header. Heads round, very solid, weighing 8 to 12 lbs., and an attractive red color extending to the center of the head. A very hardy variety, making it a valuable sort for the home garden, market or pickling. Ready for market in about 110 days.

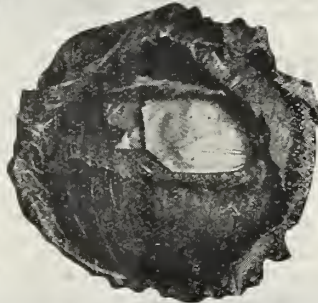

Pkt. (300 to 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c; ¼ lb., \$1.00.

Surehead Cabbage.

Surehead A well known variety and one of the best late Cabbages. Heads are very uniform in shape, of the Flat Dutch type, weighing from 10 to 20 lbs. under favorable conditions. Few other varieties can approach it in fine quality and uniform reliability in forming solid heads of good size. It is all head and always sure to head even where other varieties fail. It is one of the best keepers. Matures in about 110 days.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c; ¼ lb., 75c.

Mammoth Rock Red Cabbage.

Mills Giant Late Flat Dutch

It forms large solid heads, flat on top, of a bluish green color. It has a very short stem and is a compact grower, and is quite free from a tendency to burst. It is an all round good late Cabbage and will mature in about 120 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c; ¼ lb., 60c.

World Beater

THE GIANT OF ALL CABBAGE

This is one of the greatest of the main crop Cabbages. Enormous in size, and one of the best keepers. It often produces heads from 3 to 3½ feet in circumference, which are rounded on top, very firm and solid, and a good keeper. The heads are fine grained and it is considered the king of winter Cabbage. The absence of any large outer leaves permits more plants to the acre than most large, late varieties, and this feature makes it nice for home gardens, and it is also sure to produce more per acre when grown for market. It is probably the largest heading of all Cabbages but requires strong soil for the best results. Ready for market in 110 to 120 days.

Pkt. (about 500 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; oz., 30c; ¼ lb., \$1.00.

Every safeguard is used in growing, harvesting, and putting up for distribution Mills Seeds. The vitality and purity are guaranteed to the full extent of the purchase price, and no expense is spared to produce the best seeds that it is possible to grow. Of course it is expected the customer will use care in planting for success in farming and gardening depends largely upon soil, cultivation, and weather conditions. Remember our interests are really mutual—your success is my success, and I want you to have the finest garden in your neighborhood by planting

MILLS SEEDS

Mills Earliest Flat Head

This is just the Cabbage for the home garden producing fine solid good sized heads fit to use in 80 to 90 days from sowing of the seed. The deep flat heads are remarkably solid and uniform in shape and size. It is a beautiful cabbage in appearance and on account of its rapid growth excels all others for tenderness.

Pkt. (about 500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

All Seasons Cabbage.

Mills Giant Late Flat Dutch Cabbage.

World Beater—The Giant of All Cabbage

Celery

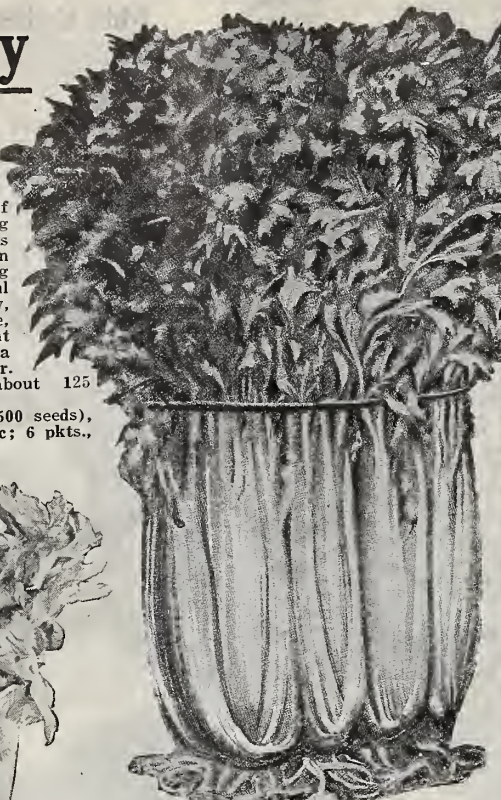

Dwarf Golden Heart

Half dwarf sort, producing handsome stalks of a rich green color, bleaching to a beautiful golden yellow, crisp, brittle, and of excellent flavor, and a good keeper. Matures in about 125 days.

Pkt. (over 1500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Dwarf Golden Heart Celery.

Giant White Solid Celery.

Mills Celery Mixture

Contains a splendid selection of varieties suitable for the home garden which are easily blanched. Matures in about 115 days. Pkt. (over 2000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Giant White Solid

This is a beautiful type, not only does the stem whiten but especially every inner leaf, making an attractive white Celery. It is tender, brittle, and sweet flavored. Valuable for fall or early winter use. Fit to eat in about 120 days.

Pkt. (over 1500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Giant Pascal

One of the best sorts for winter use at home or for nearby market. It is too crisp for shipping. The stalks are remarkably large, crisp, and brittle, and has a sweet nutty flavor. Matures in 140 days.

Golden Self-Blanching Celery.

Golden Self-Blanching

This variety is the standard for winter use. Plants are of strong vigorous growth, very stocky habit, with solid, thick, and very broad leaf-stalks. It is a rich dark green in color until earthed up, then the stalks blanch to a beautiful golden yellow. Matures in 110 to 120 days.

Pkt. (over 1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

White Plume

I offer a very fine strain which is the earliest and most easily blanched of any Celery in cultivation. It grows rapidly, being easily blanched through the summer months, but is not as long keeper as some sorts. Matures about 110 days.

Pkt. (over 1500 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

White Plume Celery.

Cauliflower

Mills Early Favorite

The best sort for inexperienced growers, as it will head when conditions are unfavorable. It may be used either for an early or a late crop and is ready in about 110 days. It forms large, firm, fine-grained heads, very white in color.

Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; ½ oz., 75c.

Dry Weather

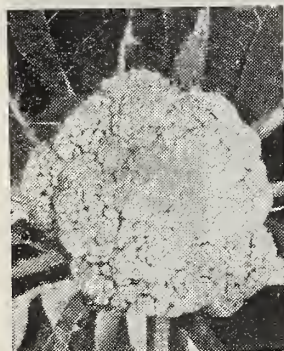

This is a first-class variety, and is especially adapted for growing in dry locations where nearly all other varieties fail. It produces large, solid, pure white heads but like all other Cauliflowers it requires high culture. Ready in about 110 days.

Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; ½ oz., \$1.00.

Early Snowball

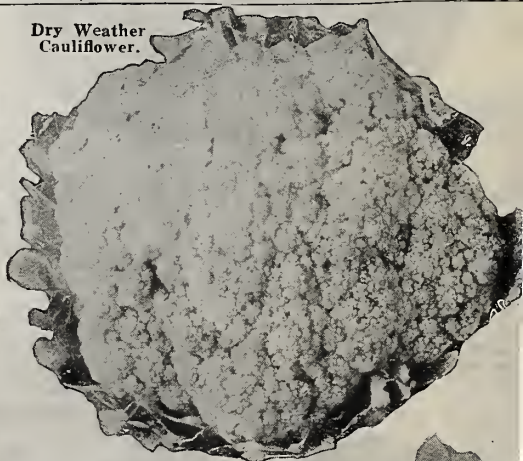

A popular extra early variety of dwarf, compact growth, good for both early and late planting. Makes a fine, solid pure white head of good size. Matures in about 105 days.

Pkt. (about 150 seeds), 8c; 3 pkts., 20c; 6 pkts., 30c; ½ oz., \$1.50.

Mills Early Favorite Cauliflower.

Dry Weather Cauliflower.

Broccoli

Hardy Cauliflower

LARGE WHITE. Cultivate and use same as Cauliflower. Produces large white heads which remain in good condition longer than Cauliflower. Ready or table in 100 days.

Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Brussels Sprouts

PERFECTION. One of the best vegetables for fall and winter use. Plant grows about 2 feet high, thickly set with good sized "sprouts" of fine flavor. Ready for table in 110 to 120 days.

Packet (250 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 25c.

Mustard

Used for flavoring in pickles. **White,** pkt. (600 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 9c. **Black,** pkt. (1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 9c.

Brussels Sprouts.

Broccoli.

Celeriac or Turnip-Rooted Celery

Forms a turnip shaped root with flavor of fine Celery. Splendid for stews, soups, and salads, or boiled like Parsnips. Easily grown.

Pkt. (1000 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Cress

Pepper Grass Fine curled. Used for salad, quick growing, leaves finely cut, crisp, and pungent. Ready for the table in 30 days. Pkt. (400 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

Dandelion

The young leaves are used for "greens" and very popular as a spring tonic. Pkt. (300 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Celeriac.

Collards

TRUE GEORGIA. Forms a large open head of leaves on a tall stem. Extensively used in the South where it furnishes an abundance of food for the table or for stock. Ready in about 90 days.

Packet (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 20c; oz., 15c.

True Georgia Collards.

Chicory

WITLOOF. Used as a winter salad. So seed in open ground not later than June. Lift the roots in the fall and store in soil in a cool place until wanted for forcing. Force in any warm cellar or room. Pkt. (200 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Cucumbers

Special Mixture This mixture is made up of all kinds and by planting it you will have an abundance of cucumbers for slicing and pickling all summer.

All Kinds Mixed, pkt. (about 150 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 10c; ¼ lb., 30c.

Davis Perfect.

Try
My
Fancy
Pickles

Mills Earliest Everbearing.

Mills Earliest Everbearing This is a grand early everbearing variety, and not only extremely prolific but will continue in bearing throughout the season. The fruits are a rich deep green color, medium in size, being produced in abundance, closely set on strong vines. Flesh white, very firm and crisp. It is the first to come and the last to go, fruiting all the time. Ready to use in 50 to 60 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Japanese Climbing This variety originally came from Japan. Young plants grow strong and bushy and as soon as they become well established begin to climb, or creep, and may be grown on fences, poles or trellises. Fruits are from 12 to 15 inches in length, skin smooth, dark green, flesh pure white, crisp, and mild flavor. Can be picked in about 55 days.

Davis Perfect A very fine cucumber for market as well as for the home garden. Fruits grow from 7 to 9 inches long, tapering at both ends with an intensely dark green skin.

Fancy Pickles.

Japanese Climbing.

Long China
Cucumber.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Klondike Handsome variety, dark green color, perfect shape, 6 to 8 inches long, very firm and crisp. Good keeper. Ready for market in 60 days. Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Fancy Pickles One of the grandest of all pickling Cucumbers. Fine in form, solid, and very early. If fruits are kept gathered, the vines will continue in bearing throughout the season. Dark green in color, from 3 to 5 inches long. One of the best small pickles.

Pkt., (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Lemon Similar in shape to a lemon; when ripe of same color. Skin smooth, flesh white, tender, crisp, and sweet. An interesting novelty, quite early. Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

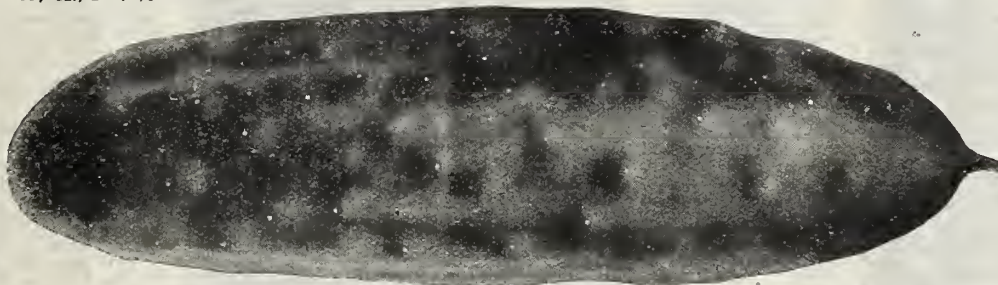

Nichols Medium Green Handsome variety, straight and smooth, excellent for pickling and good for slicing when mature; dark green; crisp and tender. Matures in about 55 days. Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Early Fortune

One of the finest cucumbers of the White Spine type, fruit 7 to 9 inches long, flesh white, firm, and crisp. Ready in 60 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

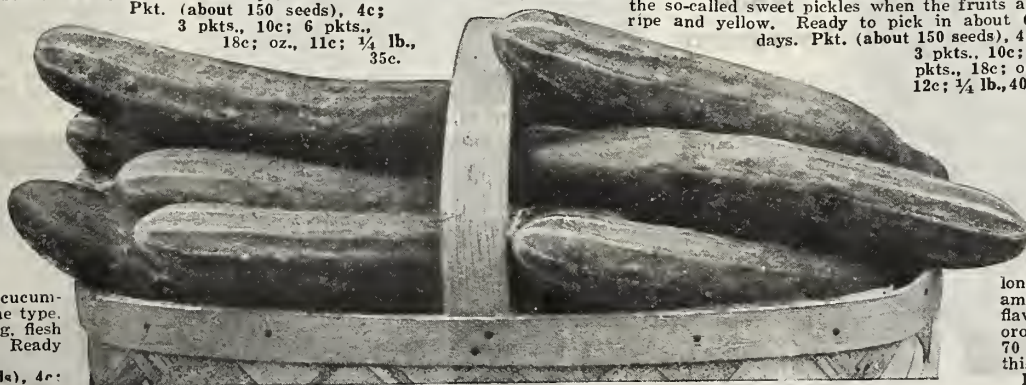

Mills Earliest White Spine.

Mills Earliest White Spine A special strain of White Spine which is most desirable for its extreme earliness. It is very productive and good for forcing as well as for the home garden. Fruits uniform in size, flesh white, crisp, and solid. Ready in about 50 days.

Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Improved Long Green This is a well known variety and very popular. Fruits grow from 10 to 16 inches in length and are of superior quality. Flesh very firm and crisp. The young fruit is used very largely for pickling and full-sized Cucumbers are largely used for slicing and for making the so-called sweet pickles when the fruits are ripe and yellow. Ready to pick in about 65 days. Pkt. (about 150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Improved Long Green.

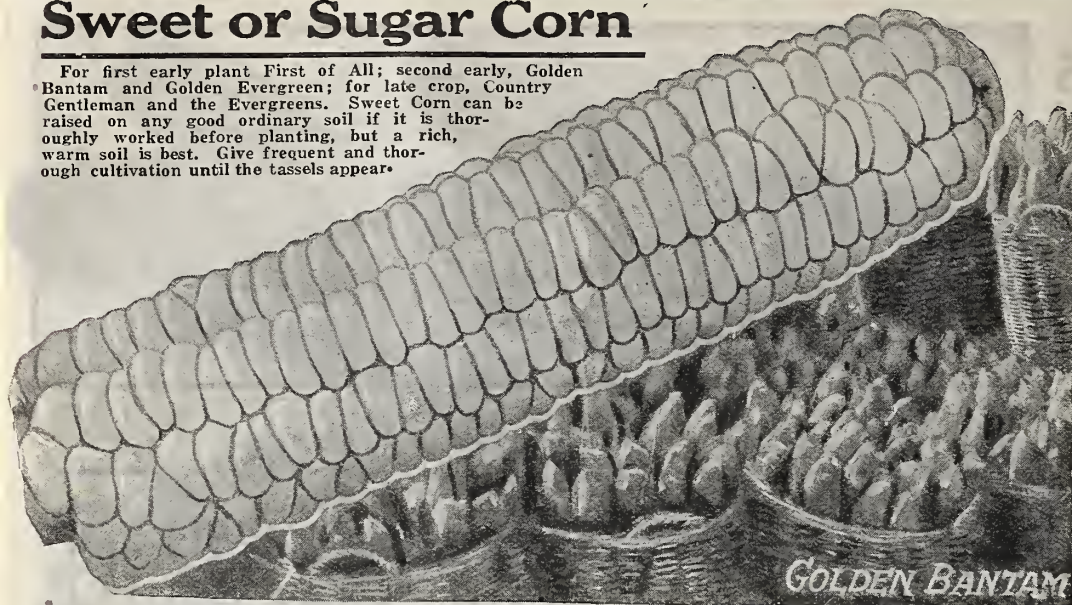

Long China
Cucumber

Remarkable new long green cucumber from China. When mature they average from 15 to 20 inches long, and 2 to 3 inches in diameter, flesh solid, crisp, good flavor. Vines strong and vigorous, matures in from 65 to 70 days. Do not fail to try this wonderful variety.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Sweet or Sugar Corn

For first early plant First of All; second early, Golden Bantam and Golden Evergreen; for late crop, Country Gentleman and the Evergreens. Sweet Corn can be raised on any good ordinary soil if it is thoroughly worked before planting, but a rich, warm soil is best. Give frequent and thorough cultivation until the tassels appear.

GOLDEN BANTAM

Golden Bantam

The most famous Sweet Corn in cultivation. The stalks grow only 4 to 5 feet high, usually bearing 2 or more ears to a stalk.

When ears are ready for use they are a creamy yellow in color, being rich, sugary, and sweetest of all. Golden Bantam is suited for extra early and late plantings up to July 15th. Ready to use in 60 to 70 days.

Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 21c; lb., 36c; 3 lbs., \$1.00 postpaid.

Mills

First of All

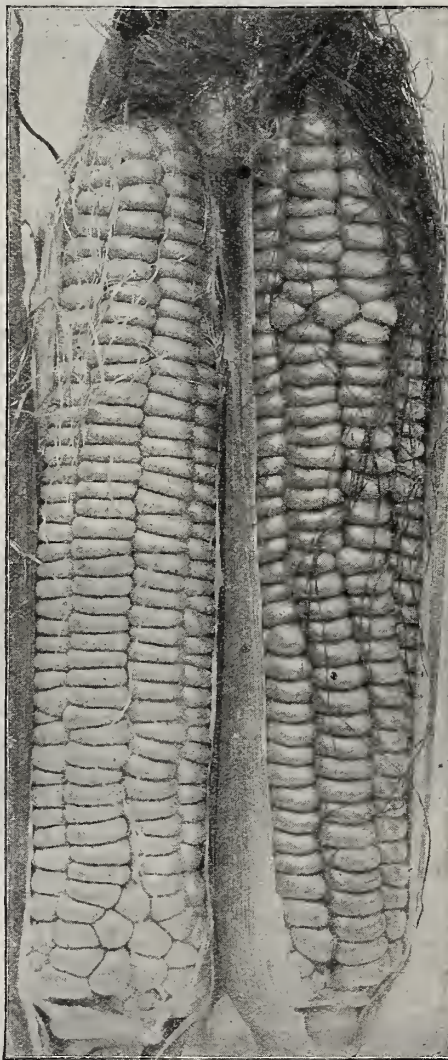

It is one of the earliest Sweet Corns for the home garden. Its being a few days earlier than all others not only makes it valuable for family use but extremely valuable for market. It is rather dwarf in growth but produces good sized ears of superior quality, tender and sweet. My customers plant this variety very extensively every year. Under favorable conditions matures in about 55 days.

Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 21c; lb., 36c; 3 lbs., \$1.00 postpaid.

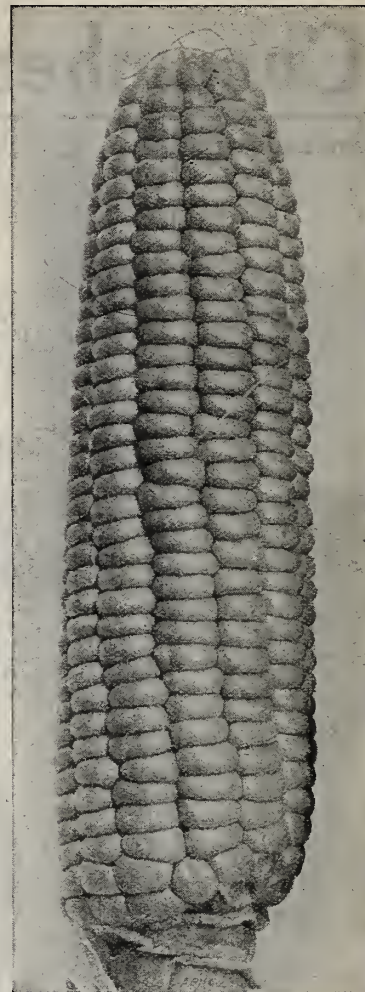

White Evergreen

This is similar in quality, type of ear, etc., to Stowell's Evergreen, but is a few days earlier. The kernels are clear white, closely set in rows on a small cob, and usually have 16 or more rows of deep grains to the ear. The flavor is remarkably sweet and it retains its delicate flavor and pure white color when canned. I can recommend this corn for the home garden, for market, and for canning. Ready to use in 80 to 90 days.

Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 18c; lb., 33c; 3 lbs., 80c, postpaid.

Mills First of All Sweet Corn.

Golden Evergreen

This new variety combines the size of ear of the Evergreen type with the color and delicious quality of the Golden Bantam. The ears are of good size, well filled with deep kernels of rich yellow color. In quality it is equal to the famous Golden Bantam. For the home garden and fancy market trade it is a great Corn, furnishing such large ears of such superior quality and sweetness. Ready to use in 75 to 80 days.

Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 21c; lb., 36c; 3 lbs., \$1.00, postpaid.

Stowell's Evergreen

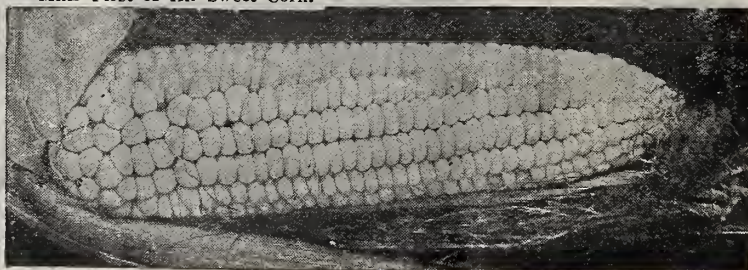

The old well known variety for home use, market, and canning. The grains are of good size, long, and slender, and it is highly recommended on account of its sweetness and good canning qualities. Ready in 90 to 100 days.

Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 18c; lb., 33c; 3 lbs., 80c, postpaid.

Country Gentleman

One of the finest and sweetest of all Sweet Corns for the table. As shown by the photograph the kernels on the cob are irregular, plump, pearly white, and tender. Ears average 7 to 9 inches in length, cobs small, and grain is very deep. Another good point is its prolificacy, rarely producing less than 3 ears to the stalk. Ready to use in 80 to 85 days.

Pkt. (over 100 seeds), 5c; 3 pkts., 12c; ½ lb., 18c; lb., 33c; 3 lbs., 80c, postpaid.

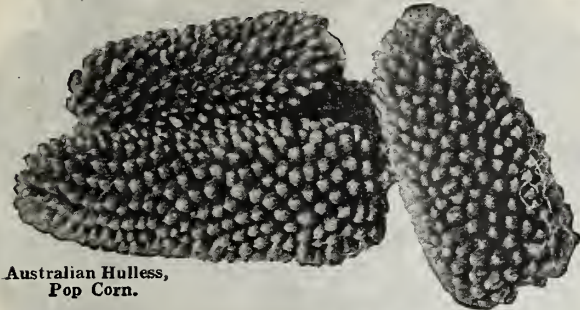

Country Gentleman Sweet Corn.

White Evergreen Sweet Corn.

Pop Corn

It will be easy to grow some Pop Corn of your own this year. Your crop will give you many evenings of pleasure later on.

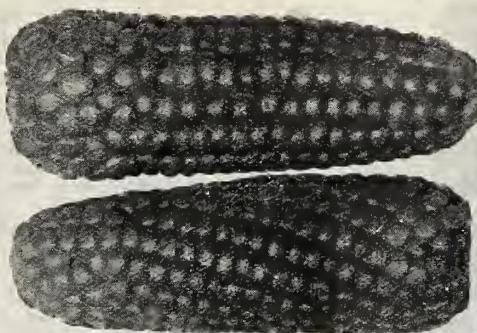

Australian Hulless, Pop Corn.

Australian Hulless

Also known in some sections as Japanese Rice or Tom Thumb Pop Corn. It is a heavy yielder, has attractive ears, peculiar in form, being nearly as thick as long, as shown by the photograph. The kernels are similar to White Rice only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality and fine flavor. It deserves special attention and you should try it. Matures in about 130 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Quick Pop A very early variety, producing from 2 to 4 perfect ears on a stalk, of a beautiful golden yellow color. This corn is very quick to pop, hence its name, and the kernels expand to a large size when popped. Matures in 90 to 100 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

HOW TO MAKE POP CORN BALLS

Cook 1 pint of syrup, 1 pint of sugar, 2 tablespoons butter, and 1 teaspoon of vinegar until it hardens when dropped in cold water. Remove to the back of stove and add ½ teaspoon of soda dissolved in a tablespoon of hot water and then pour the hot syrup over 4 quarts of freshly popped corn, stirring well until each kernel is coated, when it can be shaped.

White Rice

Everybody knows the old variety called White Rice. My strain is the very best, stalks grow strong, producing 3 to 4 nice well developed ears to a stalk. The pearly white grains are pointed and are set closely on a small cob, protected by a thick strong husk. Matures in 130 to 140 days.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; lb., 30c.

Mapledale Prolific

The most prolific Pop Corn, enormously productive. The stalks grow about 6 feet high, producing several ears to a stalk, often 7 to 10 inches long, well filled with bright, handsome, white grains. It is an excellent corn for popping but on account of its prolific growth it requires from 140 to 150 days to mature.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

The most prolific Pop Corn grown.

Black Beauty

Ears are fair sized and the kernels rounded and smooth, not sharp and pointed like White Rice. It is quite early, and although the kernels are black they show up nice and white when popped, being tender and crisp. Matures in about 120 days.

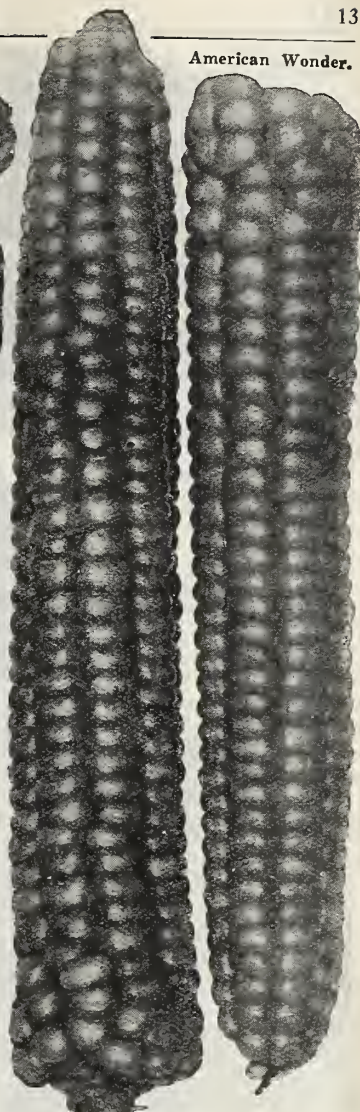

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; ½ lb., 25c; lb., 40c.

Be sure and sign your name and address to every order so you will get your seeds promptly.

Black Beauty Pop Corn.

American Wonder.

American Wonder

Truly a Wonder for Size

This is the largest Pop Corn I have ever known. It is truly a wonder for size, quality, and yield. Stalks grow very strong producing from 2 to 4 perfect ears from 7 to 10 inches long as shown by the photograph. The kernels are large, nearly as large as early Flint Field Corn, of a beautiful pearly white color, and pops nearly twice the size of any other Pop Corn, being tender and of delicious flavor. It is a surprise to all those who have never seen this corn. Matures in about 120 days. Do not fail to try it.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Peanuts

Peanuts have always been an important crop in the South and will make a crop further North or where 4 months are free from frost. Plant 6 or 8 inches apart in rows 2½ to 3 feet apart, break the pods before planting. Very interesting to grow in the garden in the Northern States.

Early Spanish The earliest variety grown, maturing in about 100 days. Plants grow upright with heavy foliage, pods cluster at the base, are small but well filled with nuts of sweet fine flavor.

Pkt. (12 to 20 nuts), 5c; 3 pkts., 12c; 6 pkts., 20c.

Selected Mammoth This Peanut makes compact bushes about 18 inches high with heavy erect stalks and large leaves. It produces great quantities of giant nuts, growing to an astonishing size and does well in Northern gardens, maturing in about 110 days on light sandy soil.

Pkt. (7 to 12 Mammoth Nuts), 5c; 3 pkts., 12c; 6 pkts., 20c.

Are You Interested in Gladioli?

Selected Mammoth Peanuts.

Early Spanish Peanuts.

Lettuce

To have the best Lettuce it should be kept growing rapidly, giving plenty of sunlight and moisture. A light, rich soil is best. For a succession plant every two or three weeks.

Black Seeded Simpson

Large curled or loose leaf Lettuce, very tender, crisp, fine quality and sweet flavor. Ready in 40 days. Pkt. (over 1200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Black Seeded Simpson Lettuce.

Big Boston

Large head variety, grown all over the country both North and South for market. Forms big, tender, and crisp heads of rich yellow color, inside of fine quality. It is adapted to open ground for summer and fall use or to growing in frames to force. It withstands adverse weather conditions. Ready in about 55 days.

Pkt. (over 1200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Big Boston Lettuce.

Early Prizehead Lettuce.

Grand Rapids

A curled or loose leaf Lettuce of rapid, upright growth, retaining its freshness a long time after being cut, good for forcing, crisp, and sweet. Not liable to rot, standing several days after being ready to cut without injury. Ready in about 40 days.

Pkt. (over 1200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

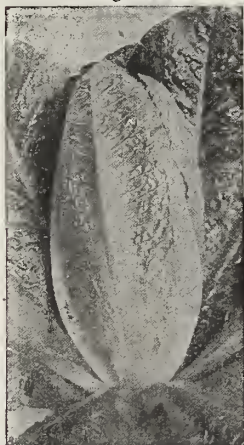

Grand Rapids Lettuce.

Improved Hanson

Forms large heads having a sweet rich flavor, good from earliest spring until late in fall. A sure-heading sort standing the heat remarkably well. Ready in about 50 days.

Pkt. (over 1200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Romaine or Cos Lettuce.

Romaine or White Cos

Leaves being well folded toward the center, bleaches almost pure white, is crisp, and tender. Ready in about 55 days.

Pkt. (over 1200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Improved Hanson Lettuce.

Crisp-as-Ice Lettuce.

Crisp-as-Ice

Makes compact, solid heads of medium size, and leaves are so tender and brittle as to have suggested the name. When cut open have a rich, creamy yellow heart. Leaves green, thick, glossy, somewhat curled with bronze edge. Ready in 55 to 60 days.

Pkt. (over 1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c.

Kale or Borecole

Splendid "Greens" for early fall, winter or spring use.

DWARF GREEN CURLED. Plant is dwarf and compact with large, deep green leaves curled and crumpled. Ready to cut in about 60 days.

Pkt. (100 to 200 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 15c.

Okra or Gumbo

WHITE VELVET. Pods round, smooth, of white velvety appearance, very tender, nice for soups, stews, etc. Ready in about 65 days.

Pkt. (over 50 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 10c.

Dwarf Green Curled Kale.

Kohl Rabi.

Kohl Rabi

Finer flavor and sweeter than Turnips.

Sow seed in spring and again in June and July.

EARLY WHITE VIENNA Flesh white and tender, excellent forcing variety, ready in about 60 days.

Pkt. (200 to 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 15c.

EARLY PURPLE VIENNA Skin purple, flesh pure white tender, and fine flavored. Ready in about 65 days.

Pkt. (200 to 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 15c.

Mills Earliest or 12-Day Lettuce.

Mills Earliest or 12-Day

The earliest, standing frost to a remarkable degree. I know of no other Lettuce that can approach it for extra earliness, hardness and growth. Leaves are heavily fringed and crumpled, light green color, crisp, and tender. Ready in 30 to 40 days.

Pkt. (over 1000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Early Prizehead

Leaves very large, bright green tinged with brownish red at the edges, forming a large loose head, very tender, crisp, and sweet. Ready in about 45 days.

Pkt. (over 1200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

All-Seasons Lettuce Collection

One sowing produces salad for the entire season. My collection is a grand assortment of all the different early, medium and late sorts, just right for the home garden, all being crisp and tender. Ready in 30 to 60 days.

Pkt. (over 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

In order to keep Lettuce crisp, place the roots in cold water but do not cover the leaves until washing for serving, and then rinse in a pan of ice water if possible.

Radishes

Spring, Summer
and Winter Sorts

Early Scarlet
Turnip White
Tipped

Mills Earliest or 15-Day

If you wish to have the first red Radishes, sow this one

The skin is a rich scarlet color, flesh pure white, tender, mild and sweet. It is a favorite wherever grown.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c; ¼ lb., 35c.

Mr. Joseph Schuman of Brown Co., Ohio, writes: I am sending you a sample of Radishes that I raised from the trial package of seeds you sent me when I ordered my garden seed from you last spring. They are surely a fine Radish and are ready in from 12 to 15 days after planting.

Mills Earliest or 15-Day Radish.

Icicle The finest of the early long white Radishes, being pure white in color, long, slender, and tapering in shape. It grows quickly to market size, is crisp and brittle and of mild, sweet flavor. Regarded by many as the finest radish grown. Plant every 10 days for succession. Ready for use in 25 to 30 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 28c.

Giant Butter This is a giant Radish in color, small top, flesh very tender, crisp, with zones of pink. Very mild in flavor and a long keeper. It is excellent for forcing or early spring planting and considered quite a novelty. For lack of room I am unable to illustrate it. Matures in about 35 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Icicle Radish.

California Mammoth White Winter

The best of all large white Radishes. Grows very large, skin white, flesh solid, crisp, and sweet as turnip. May be used in all stages of growth.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 28c.

Rose China Winter

Very handsome, of medium size, rose colored. Flesh white and mild for a winter radish. Matures in about 60 days.

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 10c; ¼ lb., 25c.

Long Scarlet Short Top

Roots long, straight, smooth, rich scarlet color, very crisp and a quick grower. Ready in about 35 days.

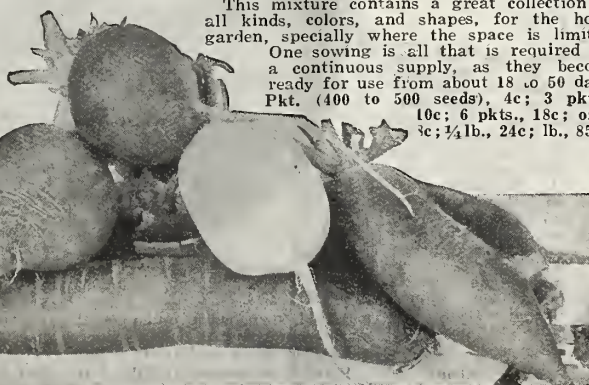

Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 10c; ¼ lb., 25c.

All-Seasons Mixture

This mixture contains a great collection of all kinds, colors, and shapes, for the home garden, specially where the space is limited.

One sowing is all that is required for a continuous supply, as they become ready for use from about 18 to 50 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 10c; ¼ lb., 24c; ½ lb., 85c.

All Seasons Radish Mixture.

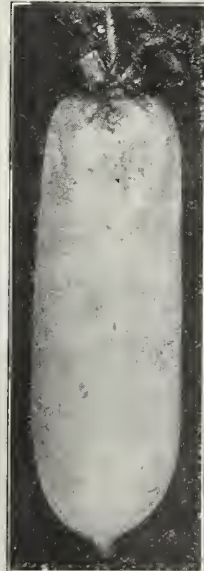

The color is rich, carmine, scarlet and tipped white. It is invaluable for forcing under glass as well as for growth in the garden. The skin is very smooth, of clear color, flesh very firm, crisp, and mild flavored. It is extremely quick to mature, being ready for the table in about 22 days from time of sowing seed. This is a very fine early radish for early planting.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 28c.

Long Scarlet Short Top Radish.

Order Several
Kinds of
My Radishes.

California Mammoth White Winter Radish.

French Breakfast Radish.

French Breakfast Just right for a small, crisp, table Radish. Of quick growth, oblong in shape, beautiful scarlet color except tip which is pure white. An old favorite for the home garden, ready to use in about 22 days.

Pkt. (400 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 28c.

Crimson Giant Radish.

Crimson Giant Grows larger than any of the early round sorts. A beautiful deep crimson color, often measuring 5 to 6 inches in circumference. Flesh is white, firm and crisp, mild in flavor, maturing in about 35 days. Pkt. (about 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 28c.

Watermelons

Leaflet on Melon culture free with order, if asked for

NEW WINTER WATERMELON

The fruits of this new melon are of medium size, round, pale yellow when ripening, flesh bright red, crystalline, sweet as honey. Seeds very small, black. Take fruits from garden before frost and store in cool cellar. They will keep in perfect condition for at least 60 days. Matures in 80 to 85 days.

Pkt. (50 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 25c.

Baby Delight (See front cover). This melon is almost round and will weigh from 3 to 6 pounds, is always solid and of a very sweet flavor. It is very desirable for the home garden, especially in the North where other Watermelons will not mature.

Pkt. (50 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

New Winter Watermelon.

Mills Earliest.

Mills Earliest

A Splendid Melon for the North

This is a splendid early Melon for the home garden as shown by the photograph. The skin is mottled with green and white. The flesh is red, sweet, juicy, and crisp. The weight varies all the way from 10 to 40 pounds, according to soil and weather conditions, but the average is from 15 to 20 pounds, which is exceptionally large for so early a variety, maturing in about 70 days. This melon has been known to mature as far North as Canada.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Wonderful Sugar Watermelon.

Wonderful Sugar

A large, oblong, dark green Melon, with broad stripes of lighter green. Flesh is rosy pink, solid, sweet, and delicious, very prolific and withstands weather conditions well. The rind is too delicate to withstand shipment but it has become very popular as a home garden melon. It will mature in about 85 days.

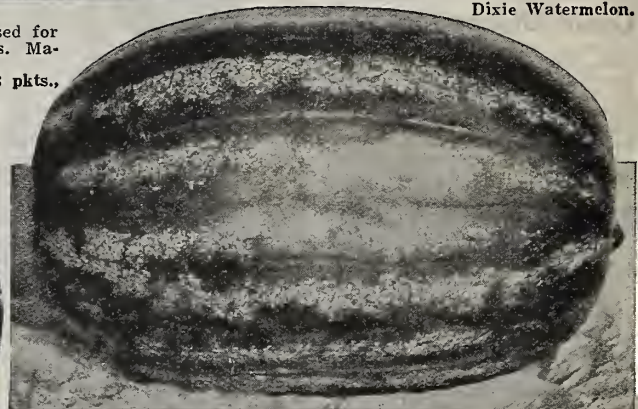

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c; lb., 75c.

Dixie Watermelon.

Citron

This melon is used for making preserves. Matures in about 100 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c; lb., 75c.

Tom Watson.

Tom Watson—The Best Shipper

The Most Popular of All Watermelons

This new Melon, although of recent introduction, now occupies a very prominent place in all the markets. It is a long, green variety covered with a fine netting giving it a most attractive appearance. The rind is thin but hard and tough so that it is unequaled as a market and shipping sort. The flesh is intensely red in color, being of superb quality. It is a great yielder and a money maker for all melon growers. The melons are of large size and heavy, averaging from 18 to 24 inches long by 8 to 12 inches in diameter and weigh from 25 to 60 lbs. I can highly recommend it as a main crop sort. Matures in about 85 days. Pkt. (50 to 75 seeds) 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c; lb., 75c.

QUITE A NOVELTY.

Apple Pie Melon

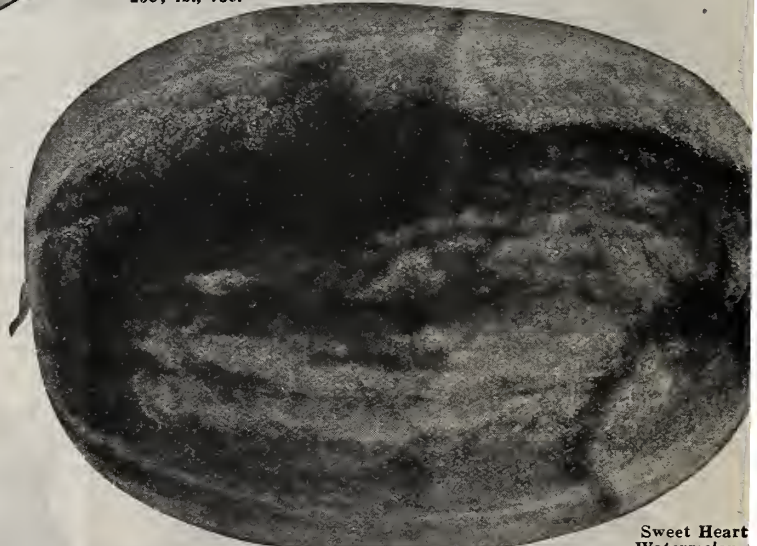

Excellent for Pies, Preserving, Etc.

Apple Pie Melon.

This melon has fruit similar to the Watermelon but the flesh is used exclusively for sauces, pies, preserving, etc. The flavor somewhat resembles apples, the flesh being solid and white. Each vine will produce 5 to 10 large sized Melons and they will keep fresh and solid nearly all winter, so they can be used when wanted. Two Melons will make nearly as many pies as a bushel of apples. Give it a trial. Matures in about 100 days.

Pkt. (about 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

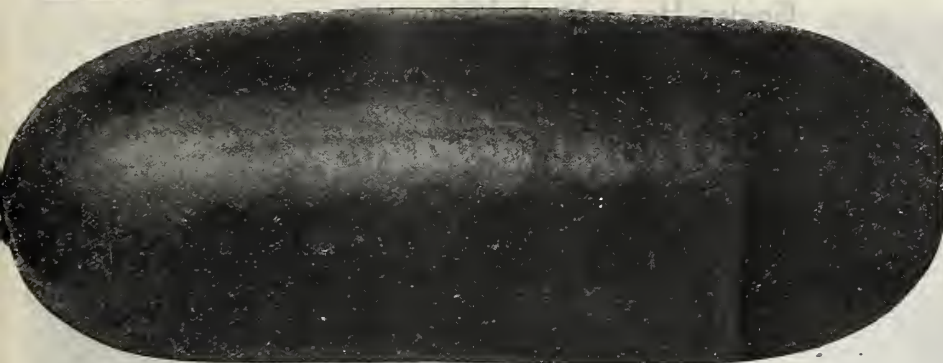

Sweet Heart Watermelon.

Sweet Heart

This is a large Watermelon nearly globular in shape, but a little longer than thick. The skin is a bright mottled green, the flesh red, firm, crisp, and exceedingly sweet. A good keeper, excellent shipper, and matures in about 80 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c; lb., 75c.

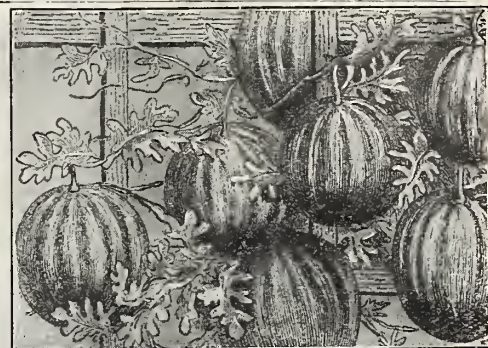

Plant Watermelons in hills 5 to 6 feet apart each way, 8 to 10 seeds in a hill, and after danger of insects is past leave but 4 or 5 strong plants in a hill. A light sandy soil and a sunny location is the best. Give frequent and shallow cultivation.

Kleckley Sweets Water Melon.

Kleckley Sweets One of the most popular, early, large Water Melons grown, and desirable to plant for home use or nearby markets. The fruits are very attractive, oblong in form and have a glossy dark green skin. The rind is thin and the flesh is a beautiful bright scarlet in color, crisp, and sugary. It gives satisfaction everywhere and I can recommend it for both North and South. Matures in about 85 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 9c; 6 pkts., 15c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Cocoanut or Climbing This is a very novel and attractive Water Melon, and if the vines are trained and tied to trellises they make a very interesting sight. The melons are about the size of a cocoanut with seed no larger than apple seed. They are very solid, rich crimson flesh and of the highest quality, being excellent for the home garden. Fruit grows and ripens for a long period. Ready 80 to 90 days.

Pkt. (about 50 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Muskmelons

Popularly known
as Cantaloupes

Yellow Meated Prize
Muskmelons.

Mills Earliest Muskmelons.

Yellow Meated Prize (ORANGE FLESH)

This is an early Melon of the solid netted type, and a very desirable one to grow. It has a very small seed cavity with thick, sweet, luscious flesh of a rich, orange color. It is a splendid keeper, and stands shipping well. Matures fruits in about 75 days.

Pkt. (150 to 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Mills Earliest (SALMON FLESH)

One of the earliest and best salmon-fleshed Melons, and is excellent for the home garden or for shipping. Melons are a nice size and shape as shown by the illustration and the flavor cannot be surpassed. Flesh is very thick, fine grained, and of a rich luscious flavor. It is finely netted and a very even size.

Pkt. (about 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c; lb., \$1.

Emerald Gem (SALMON FLESH)

This is a beautiful Melon and is truly a gem. It is early but will not stand shipping any great distance to market, but is unequalled for home use or for nearby markets. If fruits are gathered as soon as they ripen, the vines will continue bearing throughout the season. The melons are slightly flattened. The skin is smooth and heavily ribbed. The flesh is very thick and acknowledged to be the most delicious in flavor while the seed cavity is small.

Pkt. (about 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Netted Gem or Rocky Ford (GREEN FLESH)

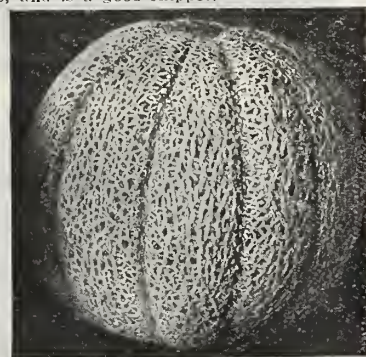

A well known profitable market melon. The vines are healthy and vigorous, producing an enormous quantity of fruit during the season, which are very uniform in size and shape. Skin a rich, greenish gold when fully ripe with fine netting.

Flesh is light green in color, very deep, ripening clear to the rind, while the flavor is rich and luscious. Matures in about 75 days. Pkt. (200 to 300 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Honey Dew (GREEN FLESH)

The fruits are smooth, rind almost white, averaging about 6 inches in diameter by 7 to 8 inches long. The green flesh is thick and has a peculiar sweet flavor, something like that of honey. It requires a little warmer and longer season than other melons and are at their best when apparently a trifle over-ripe.

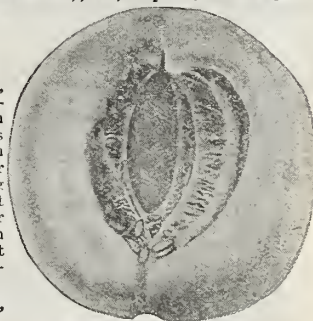

Pkt. (about 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

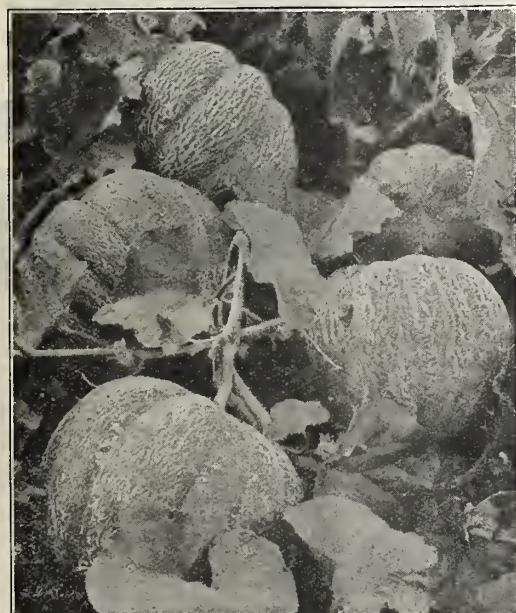

Netted Gem Muskmelon.

Emerald Gem Muskmelon.

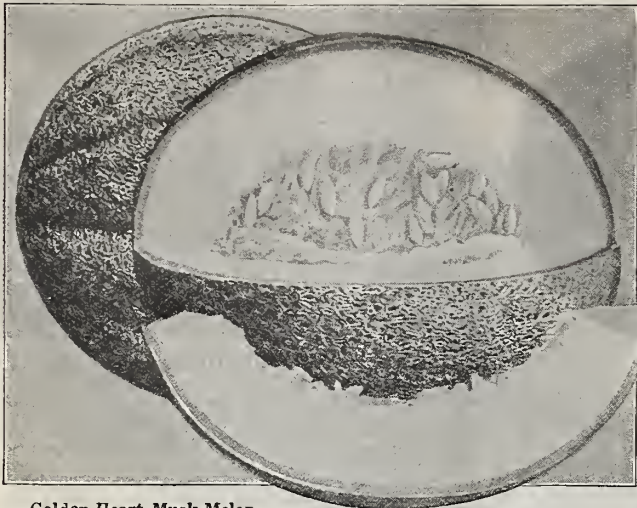

Honey Dew Muskmelon.

Bush Muskmelons.

Bush (GREEN FLESH) The fruits are of the popular Jenny Lind type, 3 to 5 inches in diameter and very early. It is one of the sweetest and best flavored of all green-fleshed sorts. On account of its compact growing habit it does not require so much room, making it very desirable for the home garden. Matures in about 65 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

Golden Heart Musk Melon

Golden Heart Musk Melon

As photo shows grows nearly round, is medium early, flesh is thick, very tender and of a beautiful golden salmon color. The flavor is excellent, being very sweet and delicious, it ripens clear to the skin, and the thin rind is of a dark rich green color. The vines are very productive, fruits set early and cluster about the hill. As shown, Golden Hearts are nearly round and average about 5 inches in diameter. It is an excellent shipper, and is taking the lead in the market wherever introduced. It is a splendid keeper and a melon that is hard to beat, and every home garden should grow some of these superb melons. Will produce ripe fruits in about 70 days. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Jenny Lind Muskmelons.

Mills Giant Muskmelon.

Jenny Lind (GREEN FLESH) This is the earliest sorts and one of the sweetest. In size it is small, measuring from 3 to 5 inches in diameter. Seed cavity small. Vines are very prolific and mature fruits in about 60 days. Pkt. (150 to 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 3c; 1/4 lb., 30c.

Mixed Muskmelons This is a splendid mixture of green, orange, and salmon-fleshed varieties, maturing from the very earliest to the late varieties. By planting this mixture one is sure to produce some melons that are suited to their climate. Excellent assortment for the home garden. Pkt. (200 to 300 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; 1/4 lb., 30c.

Banana (Orange Flesh) This curious Melon attains a length of 15 to 25 inches and a diameter of 3 to 6 inches, maturing in about 85 days. The flesh is deep and of excellent flavor. It is a good melon for home use and the long fruits have a banana-like aroma, hence its name. Pkt. (about 200 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Banana Melon.

Santa Claus Casaba

Often called the Winter Musk Melon and is in prime condition to eat during the holiday season. As shown by the illustration it looks like a mottled Musk Melon, and the rind is very hard, seeds being imbedded in the jelly-like pulp, there being no seed cavity. Pkt. (50 to 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Golden Beauty Casaba.

Golden Beauty Casaba

The melons are nearly round in shape, bright yellow with a golden tint and wrinkled skin. Grows from 6 to 8 inches in diameter, flesh is white, thick, and of excellent flavor. Matures in about 120 days and excellent for storing for the winter season. Pkt. (50 to 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Santa Claus Casaba. Matures in about 120 days.

Japanese Nest Egg Gourd

Resembling in color, shape, and size, the eggs of hens, being pure white in color. The matured fruit does not crack and will serve for years as a nest egg. A rapid grower, good climber and extremely ornamental and useful for covering arbors, screens, etc. Matures in about 75 days. Pkt. (25 to 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c;

Odd Collection of Gourds

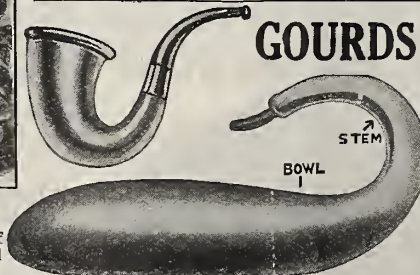

Here is a great mixture of rare, strange, and curious Gourds one would never think of seeing. The colors, shapes, and sizes include nearly everything to be found in the gourd family, and just what you will want to plant for a curiosity. Matures in 70 to 90 days. Pkt. (30 to 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Queen Anne Melon. 5c; 3 pkts., 12c.

Queen Anne Melon

A pretty, climbing variety, sometimes called Sweet Scented Pocket Melon or Pomegranate. The fruit is round, about the size of an orange, of yellow color, striped and spotted red. Flesh not edible, grown as an ornament and is fragrant, perfuming a room for days. Trained on trellises or arbors it is very ornamental and easy to grow. Cultivate the same as Musk Melons. Pkt. (about 50 seeds), 5c; 3 pkts., 12c.

Calabash Pipe Gourd

An attractive gourd which anyone can grow, and it can be used in making pipes. They are the lightest pipes made for their size, graceful in shape, color like meerschau. The plants thrive and do well in all parts of the country, producing an abundance of these pipe gourds. The vine is very ornamental for covering fences, unsightly places, etc. Matures in about 90 days. Pkt. (15 to 25 large seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

Dipper Gourd

A well known and useful Gourd, can be grown on the ground or on a trellis. Fruit is light and strong and is just right to use for dipping water, hot liquids, etc., besides being useful for fancy hanging baskets, etc. Hold from pt. to 1 1/2 qts. Matures in about 80 days. Pkt. (25 to 50 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

Odd Collection of Gourds.

Onions

Leaflet "How to Grow Onions from Seed" free with order if asked for.

Prize Taker (American Grown)

three times as large as the Globe Danvers under ordinary cultivation, and under special conditions bulbs have been raised weighing 4 to 5 lbs. each. The plants grow

I do not think there is an Onion that can surpass my American-Grown Prize Taker in size, beauty, and productiveness. The bulbs grow about three times as large as the Globe Danvers under ordinary cultivation, and under special conditions bulbs have been raised weighing 4 to 5 lbs. each. The plants grow strong and it requires 3 to 4 weeks longer season than the Danvers. Skin is thin, of a bright straw color, flesh pure white, crisp, very mild, and sweet in flavor. Prize Taker is a very satisfactory onion to grow from seed planted directly in the row, but in dry season and light soil the bulbs while ripening evenly and quite early will not attain such large size as in more favorable location and conditions. Will mature in from 130 to 140 days.

Pkt. (over 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Giant Australian Brown

This is a sure cropper, extra early, and a long keeping variety. It matures earlier than Globe Danvers but somewhat resembles it in size and shape, yielding a larger crop in both weight and bulk. The skin is a reddish brown in color, and the flesh is white, exceedingly solid, crisp, and of mild, sweet flavor. I believe it is the longest keeping onion, bulbs having been kept in fine condition for over a year after they were harvested. It is a splendid onion for the North and matures in 85 to 100 days.

Pkt. (over 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Large Red Wethersfield

This is one of the most popular Onions for winter market in many of the Northern States. It does not ripen as early as some onions, consequently it continues in growth throughout the season, making very solid onions. The large onions are well flattened but thick through as shown by the illustration. The outer skin is a deep,

rich, purplish red, smooth and glossy; flesh white, lightly tinged with pinkish rose, and very mild in flavor. Its splendid keeping qualities make it easy to hold crops for winter prices. I offer the very best strain of Red Wethersfield which will mature in about 115 days.

Pkt. (over 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Onion seed is very important—many poor strains are on the market. Onions are most suited to produce large crops under intensive cultivation, and I believe more dollars worth of onions can be grown on an acre than most any other crop. I have been supplying the best onion seed to my customers for the past 37 years.

Extra Early Red Onion.

Prize Taker Onion.

Giant Australian Brown Onion.

Large Red Wethersfield Onion.

Mills Selected Yellow Globe Danvers Onion.

Extra Early Red An extra early red Onion, well flattened but quite deep. The bulbs are of medium size, rich red in color, very close-grained, solid and heavy. It will form bulbs in cold mucky soil where other varieties fail to ripen. Highly recommended for the North where the seasons are short and cool. It can be made to produce fine onions in about 90 days.

Pkt. (over 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Mills Selected Yellow Globe Danvers

This is a magnificent Onion—the standard variety for winter use. It produces bulbs averaging about 2 inches in diameter and nearly globe-shaped. The skin is a beautiful pale yellow and the flesh is pure white, crisp, and mild in flavor. The plants have very slender necks and consequently the bulbs keep well over winter. It ripens up uniformly and is an immense cropper; over 900 bushels per acre have been raised. On account of its attractive shape and color, and its excellent keeping qualities, it always brings a good price in the markets. Matures in about 110 days.

Pkt. (over 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Mammoth Silver King.

**Mammoth Silver King**

This mammoth white variety is one of the largest in cultivation. The large bulbs are of attractive form, flattened but quite thick through, and under good cultivation will average from 5 to 7 inches in diameter. The skin is a beautiful silvery white, flesh snow white, tender, and of a mild, sweet flavor. Mammoth specimens can be grown from seed sown early in spring, maturing in 90 to 110 days. Pkt. (300 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 25c; ¼ lb., 70c.

Mills White Pickling Onions.

Mills White Pickling

This is the earliest ripening onion in cultivation, and the best of all for small pickles. The onions are a pure paper-white in color, averaging from 1 to 1½ inches in diameter of very mild and delicate flavor. Fine for bunching for early market, gardeners planting largely of this variety which commands high prices in all markets. Ready to use in 70 to 80 days. Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

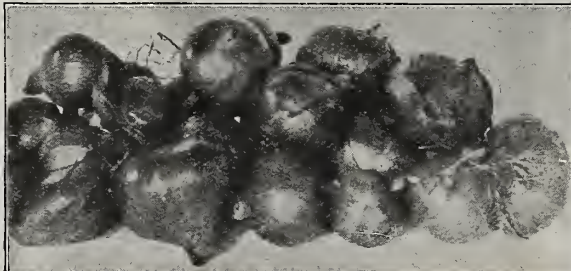

Early White Welsh

The best kind for green early green onions. The shoots attain marketable size prices before green onions grown from sets are on the market. It is pearly white in appearance and mild in flavor. Seed may be sown in early spring in rows 12 to 18 inches apart for summer use, or in late summer or fall months for early spring; onions being very hardy require no winter mulching.

Pkt. (about 300 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

onions for it does not form a bulb. It is very hardy, used only for bunching or for very quickly, and sell at top

Onion Sets Ready for Table Use in 45 to 50 Days.

Onion Sets The little bulbs are planted early in spring for "Green Onions" or to produce large onions for early market, which can be had much quicker than if grown from seed. Green Onions from sets will be your first garden crop in spring. One quart of sets will plant about a 50-foot row. Pint, 25c; qt., 40c; 4 qts., \$1.50, postpaid.

Multiplier Sets

Planted for green onions only. Are very productive, producing 10 to 15 bulbs from one onion planted. A favorite for the home garden. Pint 30c; qt., 50c, postpaid.

Early White Welsh Onions.

Parsley

Used extensively for garnishing. Sow seed early in the spring in rows about 1 foot apart and thin to 6 inches in the row. It is a good plan to soak the seed a few hours in luke warm water before sowing. For winter use set a few plants in cold frames in autumn where it may be had in winter.

Champion Moss Curled

The well known and most popular variety. I offer a choice strain with beautifully crimped and curled leaves. Ready to use in 70 to 80 days.

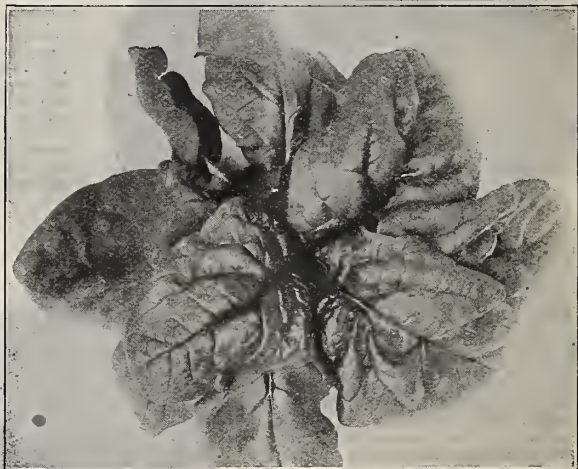

Pkt. (about 900 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Champion Moss Curled Parsley.

Spinach**Early Giant Thick Leaved**

Requires very rich ground, the richer the better. Sow in drills 12 to 15 inches apart and begin thinning out the plants when the leaves are an inch wide. All should be cut before hot weather or it will be tough and stringy. For succession sow every two weeks until July, and for very early spring use sow in autumn, and protect the plants with a light covering. Its leaves are broad, dark green in color, and a great favorite. Ready to cut in about 50 days. Pkt. (250 to 500 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 7c; ¼ lb., 20c; lb., 60c.

Giant Thick-Leaved Spinach.

New Zealand Everbearing

This is an entirely distinct species, and ideal for the home garden. If planted early in spring will produce an abundance of thick, juicy, tender branches of fine quality. It resists heat and makes a strong growth producing its tender branches throughout the hottest summer months when ordinary spinach is not to be had. Fit to cut in about 50 days. Pkt. (about 100 large seeds), 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 25c.

New Zealand Everbearing Spinach.

Chives

A hardy onion-like plant highly prized by some for use as a salad. The green stems have a pleasant onion flavor for soups. Pkt. (about 50 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

American Flag Leek

The stalks are of mild onion flavor and used same as onions. It is very hardy, strong, and vigorous grower, broad leaves and ready to use in about 85 days. Sow seed in early spring in rows about 1 foot apart and thin 4 to 6 inches apart in rows. Ready for table in about 85 days.

Pkt. (about 200 seeds), 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 25c.

Ask for My GLADIOLUS BOOK. It Is Free.

Parsnip

Seed is slow to germinate and should be sown as early as possible in spring in well prepared soil. The roots are improved by frost and should not be dug until late in fall, and stored in the cellar, but many prefer to leave in the ground until spring to be dug as required.

Improved Long Smooth or Sugar

The roots grow uniformly, large, of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base. The flesh is white, of fine texture, free from core and stringiness, fine flavored, cooking tender, rich, and sweet. Enormously productive, maturing in 80 to 85 days, and may be stored in the cellar for winter use or left in the ground all winter and dug when weather permits in spring.

Pkt. (200 to 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Pumpkins

Golden Sugar Pie This is one of the best for pies. Fruits are of small size, averaging about 10 inches in diameter. Skin of deep orange yellow, flesh fine grained, sweet, and of delicious flavor. A most prolific yielder, excellent keeper and cannot be excelled as a table pumpkin. Matures in about 65 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 30c; ½ lb., 50c.

Winter Luxury Enormously productive and claimed to be one of the best pie pumpkins in existence on account of its wonderful winter-keeping qualities. It is of medium size, slightly oval in shape, evenly and finely netted and is a yellowish russet color. The flesh is a deep golden color, sweet, and tender. Matures in about 95 days.

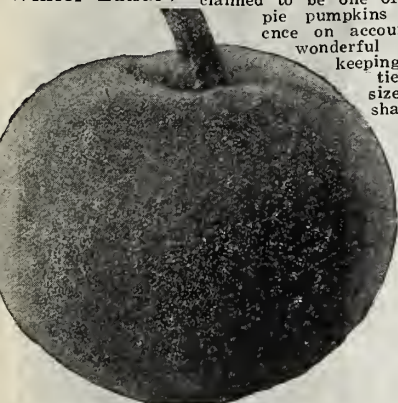

Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c; ½ lb., 60c.

Common Field This is the ordinary yellow Pumpkin used to plant in corn fields for feeding stock. It grows to large size, nearly round and is very productive. A fine sort for market or for family use, and is one of the hardiest pumpkins. This Pumpkin often produces very large specimens and is called by some "Big Tom." My stock is extra selected and I know will give good satisfaction wherever planted. Matures in 80 to 90 days.

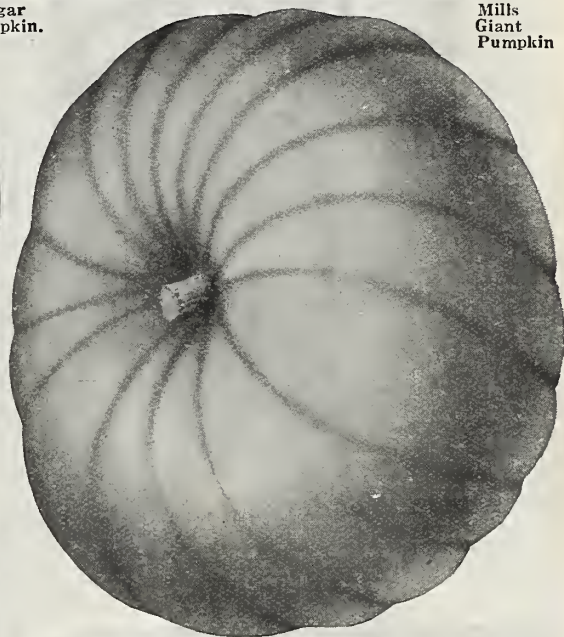

Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c; ½ lb., 75c; 1 lb., 1.25 (enough for 1 acre), \$2.50, postpaid.

Golden Sugar
Pie Pumpkin.

Mills
Giant
Pumpkin

Winter Luxury Pumpkin.

Mills Giant This is a prize winning variety growing to an enormous size. But few have any idea of the giant size these pumpkins attain. The flesh is bright yellow, fine grained and of good quality. Notwithstanding the large size it is excellent for pies. I have raised specimens weighing nearly 200 lbs. and it is nothing uncommon for my customers to report specimens weighing 100 lbs. or more. This is an excellent pumpkin to plant for show purposes on account of attaining such enormous weight and will create great interest wherever grown. These large pumpkins contain but few seeds so the price is necessarily high. Matures in 110 to 120 days.

Pkt. (15 to 20 large seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

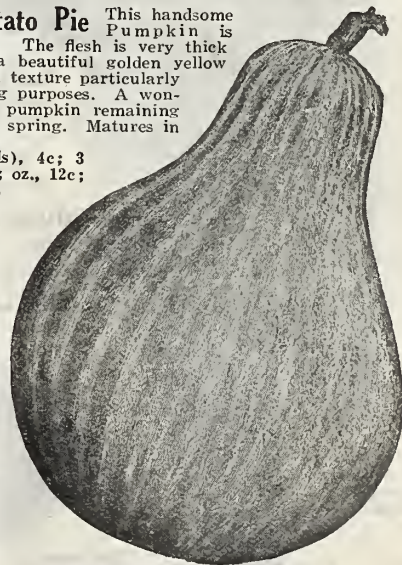

Yellow Sweet Potato Pie This handsome Pumpkin is famed as a pie-maker. The flesh is very thick and fine grained, of a beautiful golden yellow color and in flavor and texture particularly adapted for pie making purposes. A wonderful winter keeping pumpkin remaining in good condition until spring. Matures in about 90 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c; ¼ lb., 35c; ½ lb., 60c.

White Cushaw or Jonathan

This is a popular crook-necked variety with a hard creamy white shell. The fruits grow about 2 feet in length with long, solid, meaty neck. The flesh is yellow, solid, sweet, and excellent for pies and can also be used for stock feeding if desired. It often produces pumpkins fit to use in about 70 days.

Packet (50 to 75 seeds), 4c; 3 pkts., 12c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c; ½ lb., 60c.

Yellow Sweet Potato Pie Pumpkin.

Surprise Mixture This is a special mixture containing a wonderful collection of the different kinds of pumpkins, many I do not offer separately. You can grow a great lot of pumpkins of all the odd-shaped and mammoth-sized if you plant a little of this seed. The above photograph sent me by a customer shows what was produced from this mixture—pumpkins of every imaginable shape and color. Pumpkins are maturing from 65 to 125 days.

Pkt. (15 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 12c; ¼ lb., 30c; ½ lb., \$1.00.

PEAS

Mills First of All This is one of the very best extra early smooth Peas. The vines are quite slender, of very quick growth, and average 20 to 30 inches in height. The pods are well filled with smooth, round, creamy white peas that ripen so evenly as not to require more than two pickings, and sometimes if the season is very favorable one picking will take the entire crop. Quite a favorite for very early spring planting.

Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; ½ lb., 22c; lb., 40c; 3 lbs., \$1.10 postpaid.

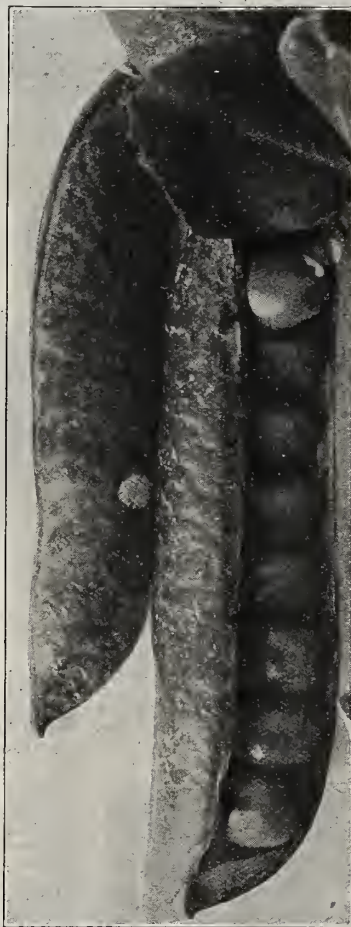

The Peas and Beans I offer are all grown from hardy and robust Northern stock, which produce more peas or beans to the pod and more pods to the plant than other stocks not Northern grown.

Mills First of All Peas.

American Wonder This is the earliest wrinkled Pea. The vines grow 10 to 12 inches high and are very prolific in producing pods well filled with large luscious peas. Peas planted in May will mature in 35 to 40 days and on account of requiring no brush or other support is well adapted for the home garden. Pkt. (150 to 200 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., \$1.20 postpaid.

Telephone Peas.

Telephone The vines grow on an average from 3½ to 4½ feet tall, and a profitable wrinkled main crop sort. Pods are of good size, well filled with from 6 to 8 large peas of rich, sweet flavor. It is a sure cropper and the quality of the Telephone is hard to beat. In the Northern States a late pea like the Telephone planted about July 1st will usually bear until a hard frost. Fit for picking in about 70 days.

Pkt. (about 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., \$1.20 postpaid.

Thomas Laxton

This is a rival to the famous Gradus or Prosperity, having wrinkled seed producing a long podded extremely early pea. Plant grows about 3 feet high, being identical with Gradus, but the pods are deeper, richer green, and experts claim it is even sweeter and finer in flavor. The crop ripens only a few days after Gradus, and is ready to pick in about 58 to 60 days.

Pkt. (100 to 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., \$1.20.

Thomas Laxton Peas.

Gradus or Prosperity This Pea is claimed by many the best early wrinkled pea in existence. The vine has heavy stems and grows about 2½ to 3 feet high bearing large pods from 4 to 5½ inches in length, well filled with peas of large size, of the finest flavor. Ready for use in about 55 days.

Pkt. (100 to 150 seeds), 6c; 3 pkts., 15c; ½ lb., 24c; lb., 45c; 3 lbs., \$1.20 postpaid.

Champion of England The vines grow strong, 4 to 5 feet tall; is one of the oldest and best wrinkled peas in cultivation. The fine large pods are filled with large peas of delicious flavor. Cannot be over praised as a standard late sort. It matures in 75 to 80 days.

Pkt. (about 200 seeds), 6c; 3 pkts., 15c; ½ lb., 22c; lb., 40c; 3 lbs., \$1.10 postpaid.

Champion of England Peas.

Gradus or Prosperity Peas.

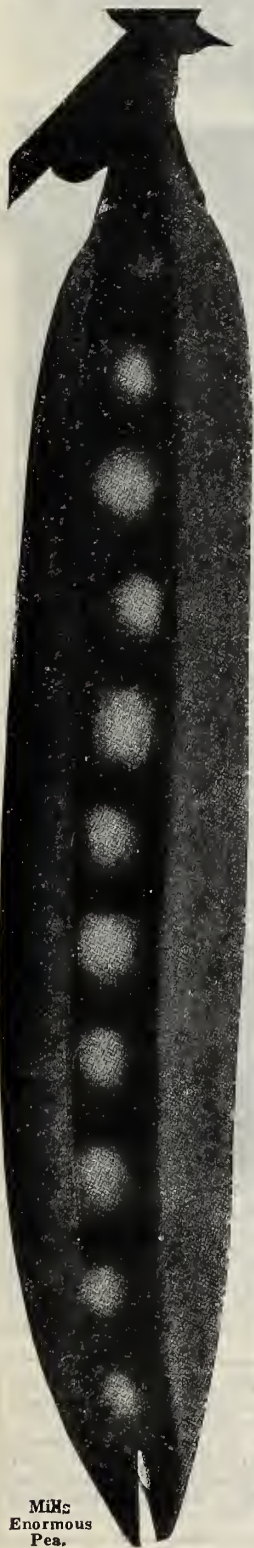

PEAS

Unsurpassed Everbearing

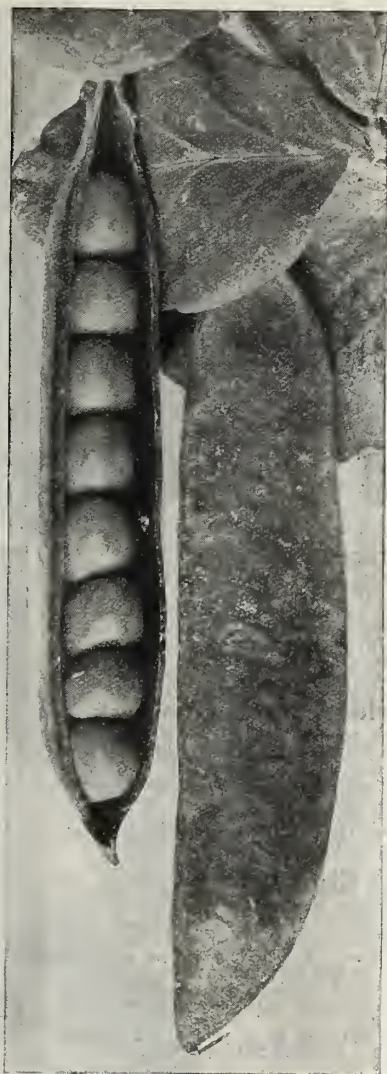

(Second Early)

A grand wrinkled Pea growing about 2 feet high. It has a remarkable branching habit and is a continuous long season bearer, especially adapted to summer and autumn cropping. The vines produce well-filled pods, the peas being very large, tender and of superior quality. It will do well without bushing and will produce pods for picking in 60 to 65 days.

Pkt. (100 to 150 seeds), 6c;
3 pkts., 15c; 1/2 lb., 24c;
lb., 45c; 3 lbs., \$1.20 postpaid.

Mills
Enormous
Pea.

Unsurpassed Everbearing Peas.

Mills Enormous Giant of the Pea Family The Largest Podded and the Heaviest Cropper

There are few varieties of seed in this Seed Book that are better named than this **Giant Pca**, when you consider that it will produce pods attaining the extraordinary length of 7 inches and upwards, closely packed with from 10 to 12 dark green peas of fine flavor. The plant is of branching habit growing about 5 feet in height with dark green foliage. It is of very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in clusters, making an attractive appearance. Every customer will be delighted with this giant pea. A few plants growing in your garden will produce a great quantity of pods and peas and will be profitable as well as interesting. For the best results give the vines a little support. Matures pods in 70 to 80 days.

Pkt. (100 to 150 seeds), 6c; 3 pkts., 15c;
1/2 lb., 25c; lb., 45c; 3 lbs., \$1.25 postpaid.

Mills Earliest Peppers,

Peppers

Chinese Giant

The largest, mild, red Pepper. Plants grow stocky about 2 feet in height, thickly set with enormous fruits 4 to 5 inches in diameter of a brilliant, glossy scarlet. Flesh thick and meaty. Ripe fruits in about 140 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 50c.

Tomato Pepper

Upright growth, productive, so mild they may be eaten like an apple. Fine for canning or as a salad. Maturing in about 110 days. Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c.

Improved
Ruby King
Pepper.

Long Red Cayenne

The well known favorite hot Pepper, fruits conical-shaped 3 to 4 inches long of bright red color, and borne in great profusion. Matures in about 125 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Pimiento

The sweetest Pepper grown. Very productive; produces medium sized brilliant red peppers maturing in about 135 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

Pimiento
Pepper.

Mills Earliest Pepper

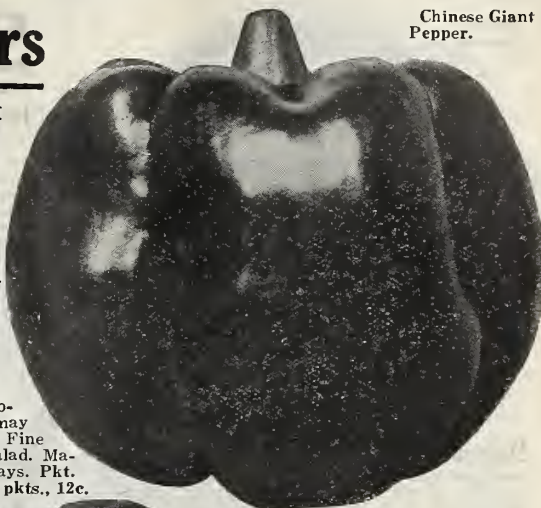

This **Grand Early Pepper** is a prize for anyone who wants Peppers early in the season. Many people have difficulty in getting pepper plants to bear well, but if you plant **Mills Earliest** you will be more than pleased. The plants grow from 12 to 15 inches high, and usually produce so many peppers that they seem hardly able to support them, for they are clustered all over the plant. Often early in August some peppers will be ripe, a handsome red in color, and nearly all ripe before frost under favorable conditions. The fruit is of good size, just about right, while the flavor is very mild. For the Northern part of the country this is the only large, sweet pepper that can be relied upon to produce a crop.

Pkt. (about 50 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Mixed Peppers A grand assortment of Peppers whereby anyone can have peppers in 100 to 140 days.

Pkt. (75 to 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c; oz., 25c.

Chinese Giant
Pepper.

Improved Ruby King

Plant grows about 2 feet high and produces a fine crop of large scarlet fruits of sweet, mild flavor, 4 to 6 inches long by 3 to 4 inches thick. Fruit ripens in about 130 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 50c.

Mammoth Golden Queen

Sweetest and largest yellow Mango Pepper, specimens reaching 6 to 8 inches in length and 4 to 5 inches in diameter, maturing in about 130 days, flavor mild and pleasant.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Mexican Bouquet

Plant grows compact, producing an abundance of small coral red Peppers crowded in a bunch at the top of the branches, distinct and beautiful. Matures in about 135 days.

Pkt. (50 to 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

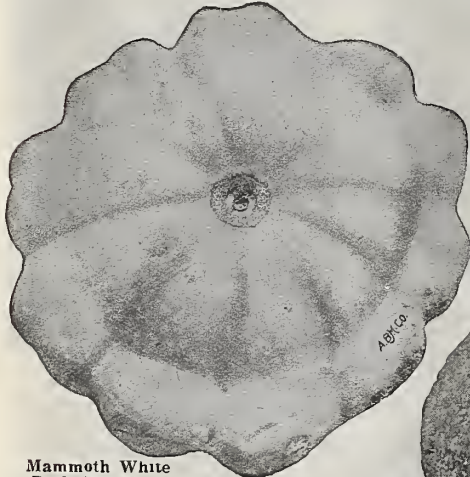

Delicious
Squash.

Delicious This is an early winter variety of medium size, preferred by some to the Hubbard. Color dark green, shell moderately hard but very thin. Flesh thick, fine grained and bright yellow in color. The fruits are a little smaller than Hubbard, weighing from 5 to 10 lbs. each. It makes an ideal home garden squash and is much used for pies. Fine flavor. Ready for table use in 65 to 75 days.

Pkt. (40 to 60 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 50c.

Mammoth White Bush Favorite summer Squash, earlier than any other summer variety. The illustration shows the shape. The skin is white and flesh is tender when ready for use. It is of dwarf, bushy habit, quite uniform in shape and size, hardy, and very productive. Ready for use in about 50 days.

Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c.

Mammoth White
Bush Squash.

Saikyo This is a curiously-shaped Squash from China, and a good variety for early winter or even summer use. The fruit is dark green outside and the flesh is thick, and when cooked is of the most delicious flavor. It is solid and a good keeper, and matures quite early. Is a splendid novelty. (See illustration.)

Pkt. (30 to 40 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Saikyo Squash.

Squash

Improved Hubbard Most Popular Winter Squash

This is the well known winter squash, planted in more gardens than any other sort. Vines of strong running growth, fruits large, olive-shaped with dark green skin and very rich deep golden yellow or orange-colored flesh, and is very fine grained, solid, dry, and sweet. Ready for market in 70 to 80 days. Keeps well.

Pkt. (40 to 60 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 50c.

Chirimen Squash.

Improved
Hubbard
Squash.

Chirimen A new Squash from China, rather small but flat with a delicious flavor. It can be used either in the fall or early winter. The flesh is thick, a beautiful golden yellow and fine grained. It can be used for pies and is fine when baked and buttered. Try it.

Pkt. (30 to 40 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

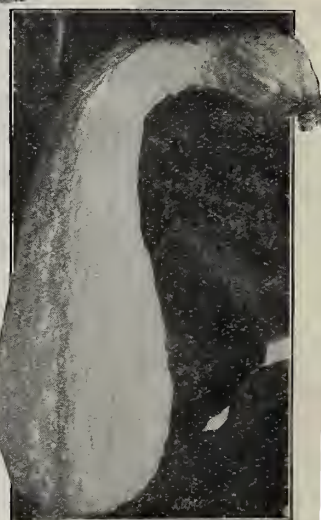

Golden Summer Crookneck

The popular yellow crookneck summer Squash, quite heavily warted shell, and has deep golden yellow flesh, dry and of agreeable flavor. It is of dwarf bushy habit and very productive, maturing in about 50 days.

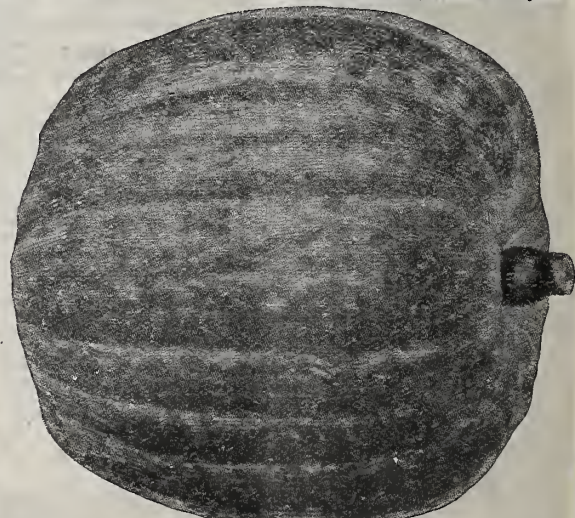

Pkt. (50 to 75 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 12c.

Mills Giant A very large variety and under special cultivation it attains a great weight, and is very attractive in appearance. The outer skin of this giant squash is a rich orange yellow. The flesh is yellow and very thick and the quality is good. It is a prolific variety and a good winter keeper and will mature in 80 to 100 days.

Pkt. (30 to 40 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c.

Golden Summer Crookneck Squash.

Mills Giant Squash.

Mixed Squash

Supplies the table the entire season. This is a wonderful mixture as shown by the photograph. In it will be found early and late, large, medium, and small varieties, whereby anyone can have a great supply of delicious squashes throughout the entire season, many being good winter keepers. Mature from in 50 to 100 days.

Pkt. (about 100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c.

37 YEARS AGO—I started to grow seed and offered them for sale through my catalogue, a leaflet at that time. I have been at it continuously since that time—1887—and have customers on my list that have continued to patronize me during that time, which is the best recommendation I can offer.

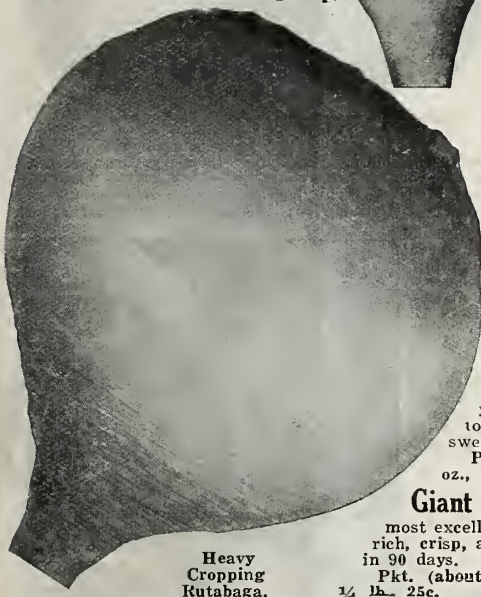

Early Snowball or Six Weeks Turnip.

White Egg Popular early Turnip, growing to a good size. The solid roots are egg-shaped, smooth, and pure white. The flesh is fine grained and of mild, sweet flavor. Does well for early spring sowing but is grown quite extensively for fall use. Ready for use in about 55 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Begin sowing Turnips early in spring as ground can be worked, and thin to 6 or 8 inches in the row. For later crops sow in July or August.

White Egg Turnip.

Heavy Cropping Rutabaga.

Turnips

Sow a good supply. Ready to use in 50 to 75 days from seed.

Early Snowball or Six Weeks

A pure white variety, bulbs having a smooth, white skin and are nearly round. Is very tender and sweet. One of the best turnips to sow in the early spring. Matures in about 60 days.

Pkt. (about 1,000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Early Purple Top Strap-Leaf

Roots are quite flat, flesh is very fine grained, sweet and tender. It is a quick grower planted largely for table use. Will form good-sized roots in about 55 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Early White Flat Dutch Strap-Leaf

Very popular sort for table or market, specially in the South.

The roots are creamy white, flesh a mild sweet flavor, excellent quality, being firm and crisp. Bulbs of medium size, flat shape and a good keeper. Matures in 50 to 55 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Butter Ball A beautiful golden yellow Turnip. Flesh yellow, firm, and sweet, grows to about the size of a base ball and is very round. Is very early, producing turnips large enough to eat in 40 to 50 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c.

Extra Early Milan This is one of the earliest turnips in cultivation. Roots flat, smooth with bright purple top and few leaves. Flesh white, sweet, and fine grained, excellent for the home garden. Adapted to spring and fall sowing. Matures in 40 to 45 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 30c.

Rutabagas

Heavy Cropping One of the most profitable of all yellow Rutabagas. It is the best shaped, heaviest, hardest, and most productive. The flesh is a beautiful yellow color, fine grained and sweet. Excellent for table use or for stock feeding. Ready in about 90 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Improved American Purple-Top A very productive sort, yielding large, smooth, globe-shaped roots with purple top, yellow skin, and flesh, being fine grained and very sweet. Matures in about 90 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Giant White Sweet

An extra good white Rutabaga, growing to a large size, and is most excellent for table use or for stock. The flesh is white, firm, rich, crisp, and sweet. Just the Rutabaga for a big yield. Matures in 90 days.

Pkt. (about 2000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 8c; ¼ lb., 25c.

Early Purple Top Strap Leaf Turnip.

Turnip Mixture

A Grand Mixture of all Turnips I have made up a great mixture of garden Turnips and Rutabagas including both white and yellow-fleshed varieties. It is a wonderful collection and will mature roots all the way from 45 to 100 days. You should try it.

Pkt. (about 3000 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 7c; ¼ lb., 20c.

Butter Ball Turnip.

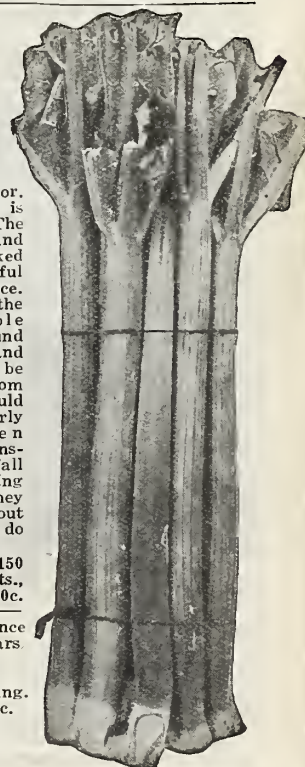

Giant White Sweet Rutabaga.

Rhubarb or Pieplant

GIANT CRIMSON. The best Rhubarb, stalks are of medium size, good length, of beautiful crimson color, and the quality is simply superb. The skin is so thin and tender when cooked makes a beautiful crimson sauce. Rhubarb is the first vegetable from the ground in spring and plants may be raised easily from seed which should be sown in early spring. When well started transplant in the fall or the following spring where they are to grow, about 3 feet apart. I do not offer roots.

Pkt. (about 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Rhubarb or Pieplant.

Salsify or Vegetable Oyster

MAMMOTH SANDWICH ISLAND. This is the best variety grown and the largest and most profitable Salsify in cultivation. The roots are of very superior quality, and delicate in flavor. Sow seeds in spring as the roots require a full season to come to maturity, and as they are hardy may be left in the ground during winter or dug and stored in a cool cellar after cutting off the leaves.

Pkt. (about 200 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c.

Herb Seed

Those marked * are perennial and when once obtained in the garden may be preserved for years.

Anise. Seeds aromatic.

*Balm. Has medicinal qualities.

Coriander. Seeds aromatic.

*Caraway. Seeds aromatic.

Dill. Seeds aromatic.

*Horehound. Medicinal qualities.

*Wormwood. Medicinal qualities.

Price pkt. (about 100 seeds), 5c; 3 pkts., 10c; 6 pkts., 18c.

*Lavender. Very fragrant.

*Rosemary. Very fragrant.

Summer Savory. For seasoning.

*Sweet Fennel. Seeds aromatic.

*Sage. Culinary herb.

*Thyme. For seasoning.

BIG LOT OF SEEDS FOR 10 CENTS

This is a Wonderful Collection of Seeds and will Produce Bushels of Vegetables, Fruits and Flowers

The following 10 Packets of Seeds will be mailed to any address for only 10c.

- 1 Pkt. (300 seeds) Cabbage—60-day—Produced heads in 60 days.
- 1 Pkt. (600 seeds) Lettuce—Earliest or 12-day—Record breaker.
- 1 Pkt. (100 seeds) Radish—Red Bird—Earliest of all reds.
- 1 Pkt. (100 seeds) Vegetable Peach—Fine for preserving.
- 1 Pkt. (1000 seeds) Turnip—6 Weeks or Snowball—Quickest grower.
- 1 Pkt. (100 seeds) Tomato—Early Tree—best of all Erect growers.

1 Pkt. (25 seeds) Garden Berry—Fruits in 4 months from seed—good for Preserves and Pies.

1 Pkt. (50 seeds) Aster-Bouquet—1 plant is a gorgeous bouquet.

1 Pkt. (1000 seeds) Poppy-Firefly—Most gorgeous poppies grown.

1 Pkt. (2000 seeds) Flowers—27 varieties—Great mixture—Wonderful colors.

1 Guarantee you will be more than pleased. Include this collection in your order.

Tomatoes

Leaflet, "How to Grow Tomatoes" free with order if asked for.

Mills Giant Climbing, or Mammoth Prize

(See front cover). I have made this Mammoth Tomato a specialty for years and it has given great satisfaction wherever grown. It possesses every good quality to be found in a Tomato. Vines grow strong and vigorous and when properly trained will attain the height of 12 to 15 feet, and carry an enormous weight of fruit. Its massive fruits are almost perfect in form, and as to size, weight, and solidity no other mammoth tomato I know of can approach it. I have seen specimens weighing 3½ pounds and it is nothing uncommon for fruits to weigh 1, 2, and 3 pounds each. Every garden should have a few of these tomato plants. Begins to ripen in about 110 days. Pkt. (100 to 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

The Burbank Tomato.

Quick Crop I introduced this Early Tomato several years ago, and I have received nothing but praise for it from every section where it has been grown. It is a strong grower and a great producer. It is handsome in shape, of a beautiful dark red color, very smooth, thick from stem to blossom end, free from cracks and ridges, and very solid and heavy. The fruits are produced in large clusters ripening from early summer until killed by frost. The vines are very hardy making it desirable for early planting and it deserves a place in every garden. Ready in 80 to 90 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 25c; oz., 40c.

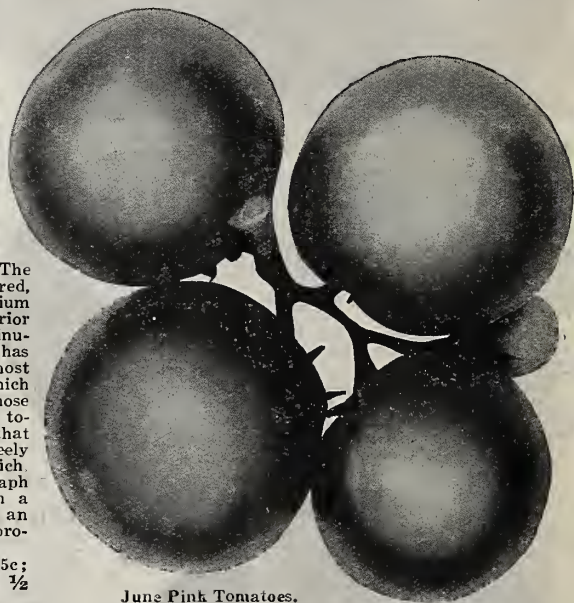

Earliana Tomatoes.

The Burbank

Earliest of All

This New Early Tomato, THE BURBANK, is one of LUTHER BURBANK'S latest creations. This is what he says of it: "It is by far the earliest and smoothest, and is such a compact grower that it may be planted from one-third to one-fourth closer each way, thus making it also the most productive Tomato in the world. The fruit is bright crimson red, thick, solid, heavy, medium to large in size, of superior quality and is borne continuously. The BURBANK has one other unique and most remarkable quality which will be appreciated by those who like fresh sliced tomatoes for the table, that the skin peels more freely than any other from the rich firm flesh." The photograph shows a plant trained on a low trellis and gives an idea of its enormous productivity.

Pkt. (100 to 150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; ½ oz., 30c; oz., 50c.

June Pink Tomatoes.

June Pink This is a pink Tomato resembling "Earliana" in every way except the color. The vine is compact and branches freely producing handsome, good sized, deep pink fruit hanging in clusters. Fruit begins to ripen in about 90 days and bears for a long season. Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 30c.

Bonny Best

A splendid large, second early, red Tomato

A vigorous grower and a heavy cropper.

It sets its fruit in clusters of 5 or more, and is ready to pick in about 95 days. The shape is perfect and it is remarkably uniform in size. A great variety for forcing under glass.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 30c.

Mills Early July

I have made quite a specialty of this early Tomato for several years. Its great value lies not only in the time of ripening its first fruits but that such a quantity of fruit can be picked from a single plant, while many other varieties ripen only a few fruits at a time. The fruit is of good size, bright red in color, solid, and of fine quality. Ready in about 90 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 30c.

Golden Queen

The best yellow low Tomato, the handsome fruits are of good size and very smooth,

solid, and meaty, and of mild flavor. On account of being a bright yellow color it makes an attractive dish when served together with red fruited tomatoes. Is medium early in ripening and a prolific bearer, beginning to ripen in 95 to 100 days. Many consider this yellow tomato better flavored than red varieties, as it is claimed to be less acid. Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 30c.

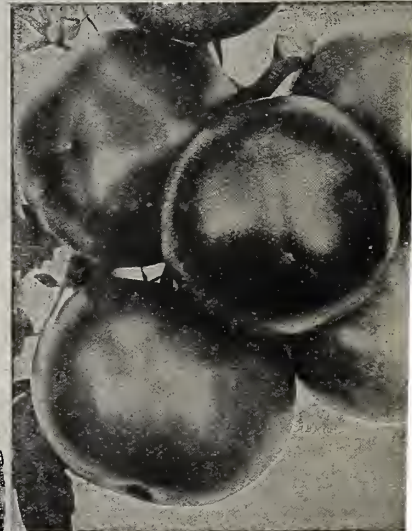

Golden Queen Tomato.

Earliana

A very popular, extremely early, red Tomato, of good size and quite smooth, also known as Spark's Earliana. It is very popular with many growers of tomatoes for early market. Plants are of compact growth with stout-jointed branches and yields well, the plants being crowded with clusters of fruit all over. Fruit is bright red in color, solid, and of fine quality. Ready to pick in 85 to 90 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 30c.

Chalk's Early Jewel.

Chalk's Early Jewel

This is a popular second early, bright red Tomato, and within a week or 10 days as early as the famous "Earliana," and even a heavier cropper. The fruits are of larger size and of a sweeter flavor, and the plants a stronger grower. The large handsome fruits are very solid, despite their ripening up to the stem without any cracks or green core. Skin thin, but strong enough to make it a good shipper and a grand variety for the home garden. Ready to pick in about 95 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 30c.

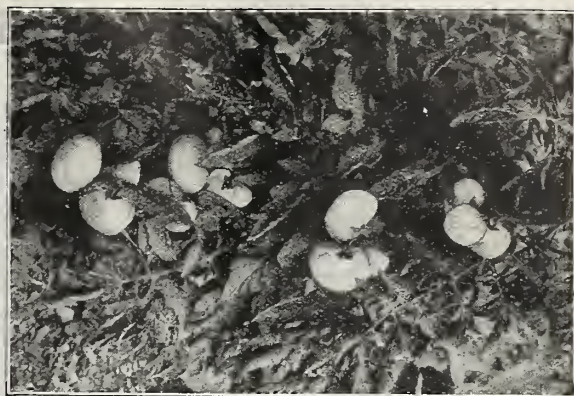

Matchless
Tomato.

Matchless

The Best Large-Fruited Tomato for Main Crop.

This is one of the best, second early, large fruited, smooth, main crop Tomatoes in cultivation. It is a strong, vigorous grower, making thrifty vines which produce an abundance of tomatoes throughout the season. Many market gardeners depend on Matchless for main crop. The fruit is large, solid, and meaty, bright cardinal red in color, of excellent flavor, containing but few seeds, and is a splendid keeper. In many sections the strong vines are inclined to overbear, and it is a standard sort for market gardeners, canners, and the home garden. Ready for market in 110 to 120 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Albino or White Tomato

At last we have a new white variety is a beauty, contains no acid and so will make tomatoes agreeable to thousands of people who have heretofore avoided them on account of the acidity. The fruit is ivory white in color and the flesh is almost paper white, and grows to a good size, is firm and solid having very few seeds making the seed rather high in price. The plants grow strong and robust and bear fruits for a long time in clusters of 3 to 5. This is a real novelty and the best white tomato ever offered. Ripens early.

Pkt. (about 50 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Pear Tomato

This is a handsome pear-shaped variety used for making Tomato Figs or preserving. The fruit is bright red in color, small and pear-shaped, about the size of a plum. The flesh is tender, of good flavor and ripens in about 90 days.

Pkt. (about 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

Improved Golden Husk Tomato

This is a very interesting and desirable Tomato, producing fruit in great quantities, which can be used for preserving, pies, etc. The fruit is a handsome yellow color about ½ inch in diameter and will keep until midwinter. The flavor suggests the strawberry and is of easy culture doing well most anywhere. The fruit is produced in husks and the cared for as other

plant should be tomatoes. Ready to use in about 120 days.

Packet (about 200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Read Inside Front Cover

Ponderosa Tomatoes.

Ponderosa

This variety is very popular in many sections of the country. The vines are of strong growth and produce large clusters of beautiful tomatoes. Fruit is deep purple in color, of immense size, very meaty and solid with small seed cells, and produced continuously until frost. A good tomato for the home garden beginning to ripen in 110 to 120 days.

Pkt. (about 200 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 30c; oz., 50c.

Red Grape Tomatoes.

Red Grape Tomato

The fruit is about the size of a large grape or cherry and is produced in clusters of 10 to 15 or more. They are bright red in color and perfectly smooth, whole clusters ripening at one time. These small tomatoes are very useful for serving whole in salads, also for pickles and preserves. The vines grow very vigorous and produce an immense quantity of fruit throughout the season. Fine for the home garden.

Pkt. (about 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

Home Tomato

This interesting Tomato is quite distinct, and was only recently introduced. 360 tomatoes were counted on one plant. The fruit is nearly round in shape, small, smooth, solid, and meaty, and extremely productive. It is quite a novelty and just the tomato for the home garden where it can be trellised to save space.

Pkt. (about 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

All Kinds of Tomatoes in Mixture

This mixture is made up of all the different varieties of Tomatoes I offer as well as several others not in my list. From the very earliest to the latest sorts of the different colors, shapes, and sizes will be produced. A very interesting collection and should prove a real curiosity, maturing ripe fruits from about 80 to 130 days.

Pkt. (about 300 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c.

Improved Extra-Early Tree Tomato

This Dwarf Tree Tomato is very popular on account of its stiff, vigorous, upright growth, with fruit well above the ground. The color of the fruit is a purplish pink and is always round and smooth, being a valuable sort for the home garden. It is a very attractive variety, both plants and fruit, and begins to ripen in about 95 days.

Pkt. (about 100 seeds), 4c; 3 pkts., 10c; 6 pkts., 15c; ½ oz., 25c.

Pear Tomatoes.

Mammoth Fruited Ground Cherry.

Mammoth Fruited Ground Cherry

This Ground Cherry will grow in almost any soil, and is just as easily raised as a Tomato. It is a very prolific bearer, fruit a handsome purple in color when ripe, and oh! what luscious fruit. For sauce or pies they are excellent and they also make good preserves, and dried in sugar are pronounced by many equal to raisins for cakes and puddings. The plants grow about 2½ feet high and should be planted and cared for like tomatoes. Ready to use in about 120 days. Cooking recipes on every packet.

Pkt., (100 to 150 seeds) 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Extra Selected and Tested FLOWER SEEDS

Forget-Me-Not (*Myosotis*)

These charming little favorites succeed best in damp, shady places but will thrive in almost any soil, and produce blue, white, rose, and other shades of flowers.

ALPESTRIS MIXED. Pkt. (300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Calliopsis

These are half-hardy annuals of quick growth, producing a profusion of bright-colored flowers all summer if planted early in spring.

SPECIAL MIXED. All sorts and colors. Pkt. (400 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Calliopsis.

Mignonette No garden is complete without a small bed of Mignonette. It is one of the most delicately scented of all flowers. Plants grow rapidly from seed sown in the open ground in spring from 12 to 15 inches high and produce long blossom spikes in great abundance.

Special Mixture, all varieties, pkt. (500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Chinese Woolflower (*Celosia Chidsii*)

Plants grow from 2 to 3 feet high, the blooms starting early with a central head, branching freely, each shoot bearing beautiful ball-shaped flower-heads of a purplish crimson color, somewhat resembling a ball of wool. Flowers profusely during the summer and fall and makes a gorgeous show.

Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Celosia or Cockscomb

All Varieties Mixed. This is a wonderful collection of Celosia made up from all the different varieties including the plumed or feathered sorts and will produce many curious plants and flowers.

Pkt. (200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Chinese Woolflower.

Hollyhocks

Annual Everblooming

These are as easily grown from seed as any annual and commence blooming in about 12 weeks, and continue throughout the season. This is a wonderful free-flowering sort and produces large flowers in many beautiful colors. I offer a special collection in mixed colors both single and double. **Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.**

Coleus These showy plants are grown for their brilliancy of foliage. Start seed early indoors, set out young plants after frost. **Mixed Colors, pkt. (100 seeds), 8c; 3 pkts., 20c; 6 pkts., 30c.**

Centaurea or Cornflower

IMPERIALIS. The plants grow about 3 feet high with numerous large flowers borne on long stems, and produce a great mass of bloom all summer. (See illustration).

Mixed, pkt. (150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Centaurea Imperialis.

Everblooming Hollyhocks.

Fountain Plant

Amaranthus Salicifolius

An easy-growing hardy annual, grows about 4 feet tall, has long narrow leaves which droop and curl and by mid-summer these leaves show brilliant colors, orange, scarlet, bronze, rose, etc., looking like a little colored fountain, hence its name. A very attractive and beautiful plant. **Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.**

Candytuft

GIANT HYACINTH-FLOWERED. One of the most useful hardy annuals. Most desirable for cut flower purposes on account of the immense white flower heads on upright stalks as shown by the illustration.

Pkt., (300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Mixed Colors. This includes many varieties and colors.

Pkt. (300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Cosmos.

Alyssum

Little Gem (Carpet of Snow). Very dwarf, each plant covering a circle of 5 or 6 inches, solid mass of white all summer. Fine for edging.

Pkt. (200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Balsam (Lady Slipper)

Mills Defiance. One of the showiest of annuals, easy to grow. Plants grow 15 to 24 inches high, producing an abundance of flower sprays.

Mixed colors, pkt. (75 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Cosmos

Giant Early Flowering. This new strain is very early, blooms profusely, flowers being much larger than any other early flowering Cosmos.

Mixed colors, pkt. (150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Late Giant Flowering. Plants grow 3 to 5 feet high, blooms profusely in late summer and autumn.

Mixed colors, pkt. (150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Single Campanula—Canterbury Bell

Campanula (Canterbury Bells)

Finest Single. These are well known and are easily grown in any garden. **Mixed colors, pkt. (10 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.**

Finest Double. Grow like pyramids nearly 2 feet high and covered with large bell-shaped flowers. **Mixed colors, pkt. (100 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.**

Bellis (Double Daisy)

Bloom very early in spring; fit for beds or borders. Do well in shady places. **Mixed Colors, pkt. (30 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.**

Large Flowering 10 Weeks Stocks.

Godetia

A charming annual growing about a foot high, flowering all summer, producing many shades and colors.

Mixed Colors, pkt. (150 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Stocks

LARGE-FLOWERING TEN WEEKS. This handsome type of Stocks produces plants from 15 to 18 inches high, and is most suitable for borders or for pot culture. Seed for early flowering plants should be started in the house in February or March. Plants prefer a sunny location and produce immense spikes of handsome flowers of various colors having a delicate fragrance.

Mixed Colors, pkt. (150 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Portulaca This charming annual is hard to equal for brilliancy and is sometimes called "Sun Plant." It will flourish under almost all conditions though hot sun and light sandy soil suit it best. Through the driest, hottest seasons it blooms amazingly, carpeting the ground with a mat of foliage almost hidden by the abundance of flowers. Nothing is prettier for beds and edgings.

ROYAL BEAUTY. All colors, single and double mixed. Pkt. (300 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Larkspur

GIANT. This is a well known annual of great beauty producing large double flowers of various colors, shades, and markings which are borne on long spikes like immense Hyacinths. Easily grown.

Mixed Colors, pkt. (300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Smilax A popular and desirable window vine, on account of its charming glossy green and graceful foliage. Greatly prized for bouquets and decorating. Soak the seed in water 24 hours before planting.

Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Digitalis (Foxglove) Produces long spikes of richly colored flowers, very ornamental, often 3 to 4 feet long.

Mixed Colors, pkt. (300 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Ricinus (Castor Oil Bean)

ZANZIBARENSIS. Grown largely for its picturesque foliage, enormous in size. The plants attain a height of 10 to 15 feet, leaves 2 to 4 feet across.

Pkt. (15 large seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Eschscholtzia (California Poppy) The California Poppy is a showy, quick growing free-flowering annual, of low, spreading growth, blooming throughout the season. Nothing can excel it in brightness. Sow the seed early in the spring where the plants are to bloom and it will be found a bed or border will be very attractive in the many gorgeous colors.

Mixed Colors, pkt. (500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Dianthus The Popular Chinese and Japanese Pinks

For profusion of bloom and great beauty few flowers can equal these. Plants bloom freely all summer and fall and are quite hardy, often giving a greater profusion of bloom the second year. Sow seed in house early, or in open ground for later flowers.

LARGE FLOWERING DOUBLE MIXED. Includes all the various shades and colors. Pkt. (200 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

GIANT SINGLE MIXED. Great collection of colors. Pkt. (200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Dianthus—Chinese and Japanese Pinks.

Sweet William A very attractive free flowering hardy perennial growing from 12 to 18 inches high. Very effective in beds and borders.

DOUBLE MIXED. All colors. Pkt. (200 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

SINGLE MIXED. All colors. Pkt. (200 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

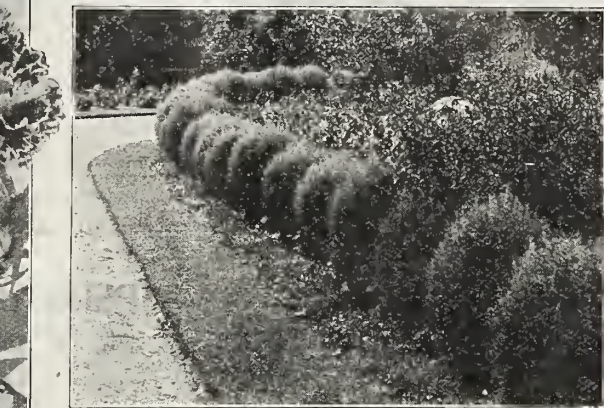

Early Garden Pinks.

Early Garden Pinks

These new Pinks bloom the first summer from spring sown seed. They flower in great profusion giving a great array of fine colors from white through different shades of pink, crimson, and variegated. Some are double, others single but all have that rich fragrance so prized in the Garden Pinks. The plants are of dwarf and compact habit often producing 50 to 100 blossoms on a single plant.

Mixed Colors, pkt. (200 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Kochia (Summer Cypress) This is an annual plant of very rapid growth sometimes called "Burning Bush." Makes plants as shown in the illustration about 2 feet high. Leaves slender, of light pea green until fall, then changing to blood red and carmine. Fine for temporary hedge, border or dividing line.

Pkt. (500 seeds), 4c; 3 pkts., 10c; 6 pkts., 18c.

Grass Pinks Sometimes called "June Pinks," are low growing, hardy Pinks. Bloom early, unequalled for the border of beds, walks or drives. Do well in any good garden soil with full sun and in an open place.

SINGLE AND DOUBLE VARIETIES. Mixed. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Sweet Peas

Giant Flowering Gorgeous

(See Back Cover)

Sweet Peas are probably the most popular flower in America. They will grow anywhere you can raise common garden peas and everyone should grow them both for their beautiful coloring and delightful fragrance. To secure beautiful blossoms manure or fertilize liberally. Plant thinly, stake early and water freely.

Earliest of All. This is the very earliest Sweet Pea, always coming into bloom nearly two weeks in advance of any other variety producing deep rose pink flowers with white wings.

Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

Giant Orchid Flowered

or SPENCER HYBRID. This is a very popular Sweet Pea on account of the large, wavy blossoms produced in great abundance. They are the best in size, color, and fragrance, representing the highest achievements in Sweet Peas. The mixture I have prepared is beyond comparison with all others, the size and shape of the blossoms and harmony of soft coloring is beyond the power of words to describe.

Mixed colors. Pkt. (100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c; oz., 20c; 1/4 lb., 60c.

Giant Orchid Flowering.

Baby Rose

ROSES FROM SEED

The Smallest Ever Grown With seed of these Roses, plants may be had in bloom in 60 to 90 days. Flowers appear in large clusters, perfectly hardy in the garden, in pots they bloom both summer and winter. Packet of seed will produce Roses of various colors, hardly any two alike.

Mixed Colors, pkt. (100 seeds), 6c; 3 pkts., 15c; 6 pkts., 25c.

Mrs. Ida Deady, a New York customer writes: "This is the first time I ever tried the Baby Rose seed. I planted them May 10th and 30 came up from one packet. One plant has two clusters and one plant has a tiny pink rose that opened this morning, July 12th."

Gorgeous Gladioli

The Gladioli is the most satisfactory and popular of all garden bulbs. Every flower garden, however small, should contain some Gladioli. Nothing else of the kind costs so little and grows blooms so readily for everybody in any soil or climate. It makes attractive displays either planted in masses or set in rows. The flowers last remarkably when cut and placed in water, developing perfect flowers from every bud.

I offer the finest mixture that can be found, made up from splendid named sorts, the brightest, most varied colors known among Gladioli.

Plant them at any time after danger of frost up to July in any fairly good soil well prepared. Plant where they will get plenty of sun about 3 inches apart in rows or in masses about 4 inches apart each way. Try my Gorgeous Mixture this year. Flowering sized bulbs, all colors, 3 for 20c; 6 for 35c; 12 for 60c; 50 for \$2.00; 100 for \$3.50, postpaid.

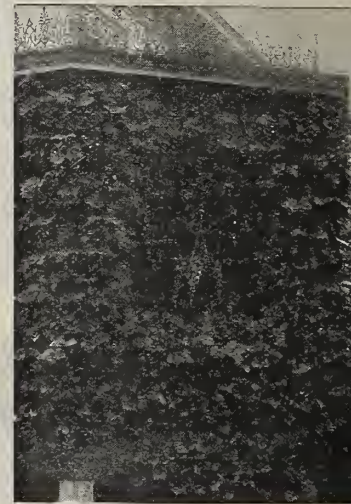

Climbing Vines FROM SEED

Japanese Kudzu Vine

Jack-and-the-Bean Stalk Vine A most remarkable climber from Japan. It is perfectly hardy and with ordinary treatment will grow 40 to 50 feet in one season from well established roots, filling the air with fragrant flowers, from its large clusters of purple wisteria-like blossoms. The foliage is large, shaped like the leaf of a bean. Starts into growth slowly but after three or four weeks grows almost beyond belief. Fine for porches, arbors, old trees, etc.

Pkt. (50 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

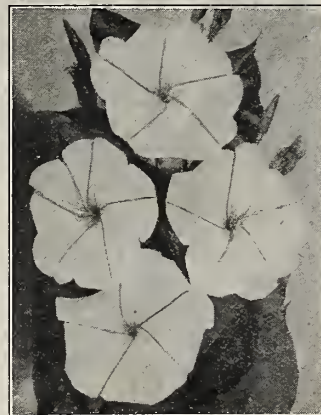

Japanese Kudzu Vine.

Moonflower

A beautiful annual rapid climber, foliage very dense, the flowers being produced in a wide range of delicate coloring. Many of the sorts open only when the sun rises, others when the sun sets. I offer all different varieties in a special mixture. Seeds should be soaked in warm water for 24 hours before sowing to assist rapid germination. Try my mixture of Moonflowers this year.

Pkt. (30 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c.

Moonflowers.

Mills Giant Nasturtiums.

Mills Giant Nasturtiums

For summer display in large or small beds nothing can surpass Nasturtiums. They are of the easiest culture and start to bloom early and keep up a continuous display of bright colored flowers until frost in the fall. The Dwarf varieties make most beautiful bedding and border plants growing about one foot high. The Tall or Climbing kinds are for covering unsightly places where they can trail up a few feet from the ground.

Dwarf Brilliant Beauties The plants make a neatly rounded bush 10 to 12 inches high producing a wonderful display of flowers of enormous size, in all colors to be found in Nasturtiums, the foliage being very attractive.

Mixed colors. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; 1/4 lb., 40c.

Giant Climbing This is the King of all Giant Nasturtiums and is made up in a wonderful mixture of colors and variations in foliage. It is just the variety to plant by an arbor or fence.

Mixed colors. Pkt. (100 seeds), 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; 1/4 lb., 40c.

Empress of India A very choice and rich strain of Dwarf Nasturtium, the leaves being a rich, dark color with great blossoms of deep scarlet color. The plants grow of even height and are particularly good when used for edgings.

Pkt. (50 seeds), 6c; 3 pkts., 15c

Empress of India Nasturtium.

Giant Flowering Gorgeous Sweet Peas

Giant Flowering Gorgeous Sweet Peas should be grown by every one of our customers. It is a wonderful mixture producing giant flowers in all possible color variations to be found in sweet peas. They will grow anywhere you can raise common garden peas, and begin to bloom early and continue for months. To secure beautiful blossoms mature or fertilize liberally. Plant early in spring, give support, and water freely. All Colors Mixed—Pkt. (150 seeds) 5c, 3 pkts. 12c, 6 pkts. 20c. oz. 25c, 1/4 lb. 75c

CARNATIONS 4 Months from Seed

The Early Flowering Marguerite Carnation

The Early Flowering Marguerite Carnation is a grand strain, producing flowers in about 4 months from seed. They are quite hardy, flowering the first season until late in the fall. Plants grow strong producing a great abundance of fragrant double flowers in a variety of colors such as pink, white, scarlet, purple, red, flaked, variegated, striped, etc. Seeds sown during the summer will produce plants which can be potted in the fall and will produce an abundance of bloom throughout the winter. Mixed Colors—Pkt. (100 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

Wonderful Dahlias from Seed

Beautiful DAHLIAS

Beautiful Dahlias can be grown from seed and the plants will bloom from 3 to 4 months after planting. Anyone who can raise a Zinnia or Aster can grow Dahlias from seed. Seed sown in the house in March or April will produce flowering plants as soon as plants grown from tubers. Some of the finest large Dahlias and richest colors have been found among seedlings, and it is very doubtful if there will be any two alike from a packet of seed. The varieties of color are wonderful and there is no flower more interesting to grow. I have made up a special mixture of both single and double varieties and I am sure if you once grow these beautiful flowers you will become a lover of the Dahlia. Order some of the seed and start plants as early as possible, plant in rich deep soil and give good cultivation, and you will be pleased with the results.

Special Mixture Double and Single—Pkt. (100 seeds) 10c, 3 pkts. 25c, 6 pkts. 40c.

Mills Giant Pansies

Mills Giant Pansies are Perfect Marvels in Size and Beauty. They produce giant flowers in the most wonderful colors and without doubt represent the highest attainable degree of perfection as regards size and colorings of the flowers; they often measure 3 to 4 inches across of clear tones of color with wonderful tints and variations such as white with dark center, lavender, dark, and light blue, violet, blue bronze, royal purple, rose, red with silver rim, mahogany, yellow, wine colored, red and gold, lavender and gold, striped, margined, pure white, black, etc. Mixed Colors—Pkt. (100 seeds) 6c, 3 pkts. 15c, 6 pkts. 25c.

King or Needle Entirely distinct, flowers large and double, petals quilled. Very odd and striking. Pkt. Crimson (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.

Giant Branching Comet Plants tall, branch freely, stems long, flowers large, petals curved and twisted. Pkt. Dark Blue (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.

American Branching A strong branching freely, flowers large and double, on long stiff stems. Pkt. Rose Pink (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.

Giant Crego A monster among the branching freely, stems long, flowers large, petals curved and twisted. Pkt. Purple (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.

New Astermum A beautiful new race of Asters, plants of strong upright growth, flowers large with long graceful petals. Pkt. Lavender (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.

Beautify Your Home With Asters

Asters are very popular and acknowledged to be the Queen of Autumn annuals. They are easily raised from seed and make a most brilliant show when grown in rows or masses, furnishing a constant supply of cut flowers until killed by frost. The varieties shown on this page represent the most beautiful, artistic and robust types of the wonderful Aster family.

Please remember, as these are all different types of asters you can have "THE WORLD'S GREATEST COLLECTION" of these popular flowers if you order one of my Special Offers, 14 packets for 60c.

SPECIAL OFFER. In order that all my customers may have this wonderful collection of Asters, I will send one packet of each color, 14 packets in all, as described on this page to any address for 60c, postpaid.

LEAFLET. "How to Grow the Most Beautiful Asters" sent free with every order.

F. B. MILLS, Seed Grower, Rose Hill, N. Y.

Lady Roosevelt The plant is a strong grower and blooms profusely; the flowers are large on long, stiff stems. In one color only. Pkt. Rose Pink (50 seeds) 10c; 3 Pkts. 25c.

New Red Sensation Called the reddest of all red Asters, producing many flowers on a strong plant, of a rich garnet or ex-blood red. Very beautiful. Pkt. (50 seeds) 10c; 3 Pkts. 25c.

Daybreak This is a wonderful aster, strong grower, producing great quantities of flowers on strong stiff upright stems. Pkt. Lavender (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.

Hearts of France Plant a strong grower, producing many flowers freely, flowers large of a striking brilliant ruby-red color. One of the most beautiful reds. Pkt. (50 seeds) 10c; 3 Pkts. 25c.

Pink Enchantress Very vigorous, producing large flowers of a soft delicate pink, always full double. A very beautiful Aster. Pkt. (50 seeds) 10c; 3 Pkts. 25c.

Peerless Yellow The best yellow Aster. Flowers large, full and round, of a beautiful chrysanthemum yellow color. Should be largely planted. Pkt. (50 seeds) 10c; 3 Pkts. 25c.

Silvery Rose A new variety with long stems, large flowers of a deep lilac-rose, almost cerise color, very delicately threaded with white. Pkt. (50 seeds) 10c; 3 Pkts. 25c.

Ostrich Feather A strong grower, producing many flowers, moth full flowers on long stiff stems, petals gracefully curved and twisted. Pkt. White (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.

Earliest Blooming Earliest of all, weeks ahead of other sorts, plants of a graceful spreading habit. Pkt. Crimson (50 seeds) 10c; Pkt. Mixed Colors (100 seeds) 10c; 3 Pkts. 25c.
